

STAINLESS STEEL DECAPPING DIE - SINCLAIR INTERNATIONAL 17/20 CALIBER DECAPPING ROD & RETAINER

[Reloading](#) > [Case Cleaning](#) > [Decapping Dies & Accessories](#)

Our Stainless Steel Decapping Die is strong, straight and easy to adjust. This die will decap cases from 22 caliber and up including long cases like the Ultramags, and 338 Lapua Mag. PPC and BR cases with .060 inch flash holes are accommodated by simply inserting the included undersized decap pin. An optional decap rod assembly is available for 17 and 20 caliber cases. The die is shipped with three headed decap pins for standard .080 inch flash holes, two pins for .060 inch flash holes and our new stainless steel Sinclair Lock Ring. Decap pins are standard Hornady headed pins.

Safety Instruction Guide for Stainless Steel Decapping Die

Introduction

Thank you for choosing the Stainless Steel Decapping Die by Sinclair International. This product is designed to provide you with a reliable and efficient means of decapping cases. To ensure your safety and the proper use of this product, please read and follow these safety instructions carefully.

General Safety Guidelines

- Always use the decapping die in accordance with the manufacturer's instructions.
- Keep the decapping die out of reach of children and vulnerable individuals.
- Inspect the decapping die and its components for any damage before each use.
- Do not use the decapping die if it appears damaged or malfunctioning.
- Store the decapping die in a dry and safe location when not in use.
- Report any unsafe conditions or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Use protective eyewear to shield your eyes from potential debris when decapping cases.
- Ensure that your work area is clean and free from clutter to prevent accidents.
- Do not force the decapping die; if it does not operate smoothly, check for obstructions.
- Always use the correct decap pin size for the caliber of the cases you are working with.
- Avoid wearing loose clothing or jewelry that may become entangled in the decapping process.
- Do not exceed the recommended caliber limits when using the decapping die.

Instructions for Installation and Usage

1. Installation:

- Ensure the decapping die is clean and free of any debris.
- Insert the appropriate decap pin for the caliber you are using (standard .080 inch for most cases, .060 inch for PPC and BR cases).
- Secure the decapping die in your reloading press according to the manufacturer's guidelines.

2. Usage:

- Place the case in the appropriate position for decapping.
- Slowly raise the ram of the reloading press to engage the decapping pin with the primer.
- Ensure that the case is firmly held in place to prevent slippage.
- After decapping, lower the ram and carefully remove the case.

3. PostUse:

- Inspect the decapping die and pins for wear or damage after use.
- Clean the die to remove any residues or debris to maintain optimal performance.

Disposal Instructions

- Dispose of any damaged or wornout parts of the decapping die in accordance with local regulations.
- If the product is no longer functional, consider recycling components where possible.
- Ensure that any hazardous materials, such as primers, are disposed of safely and in compliance with local

laws.

Contact Information for Further Support

For any inquiries regarding safety or product usage, please refer to the manufacturer's contact points as indicated on the packaging or product documentation. Ensure that you have the product details handy for a more efficient response.

Thank you for prioritizing safety and for your commitment to responsible usage of the Stainless Steel Decapping Die.
