Safety Instruction Guide for L.E. Wilson Micrometer Top Bullet Seater Dies 300 WSM

Introduction

Thank you for choosing the L.E. Wilson Micrometer Top Bullet Seater Dies 300 WSM. This product is designed to provide accurate bulletseating depths for reloaders. To ensure your safety and the optimal performance of this product, please read and follow the safety instructions and guidelines outlined in this guide.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always handle the dies with care to prevent injury.
- Keep the dies and all reloading equipment out of reach of children and unauthorized users.
- Regularly inspect the product for any signs of wear or damage before use.
- If you experience any issues while using the dies, cease operation immediately and consult a qualified professional.
- Follow all local laws and regulations regarding the reloading of ammunition.

Specific Safety Precautions for Use

- Always wear appropriate safety gear, including safety glasses and gloves, when using reloading equipment.
- Ensure that your workspace is clean, dry, and welllit to avoid accidents.
- Do not exceed the recommended bulletseating depths specified in the product instructions.
- Be aware of the potential for lead exposure when handling bullets; wash your hands thoroughly after use.
- Avoid distractions while using the dies to maintain focus and ensure safe operation.
- Always use the dies in conjunction with an Arbor Press for optimal safety and performance.

Instructions for Installation and Usage

Installation

1. **Prepare the Arbor Press:** Ensure that your Arbor Press is clean and in good working condition.
2. **Attach the Die:** Securely attach the L.E. Wilson Micrometer Top Bullet Seater Die to the Arbor Press according to the manufacturer's instructions.
3. **Calibrate the Micrometer:** Adjust the micrometer top to the desired bulletseating depth using the scale in 0.001" increments.

Usage

- Load the bullet into the die.
- Slowly and steadily apply pressure using the Arbor Press until the bullet is seated to the desired depth.
- Remove the seated bullet and inspect it for accuracy.
- Repeat the process as necessary for additional bullets.

Disposal Instructions

- Dispose of any used or damaged components in accordance with local regulations.
- Do not dispose of reloading materials in regular household waste; contact local waste management authorities for proper disposal methods.

Contact Information for Further Support

For any inquiries or further assistance regarding the L.E. Wilson Micrometer Top Bullet Seater Dies 300 WSM, please refer to the manufacturer's website or contact your local dealer.

By following these safety instructions, you can ensure a safe and effective reloading experience. Thank you for your attention to safety, and happy reloading!
