# GORILLA WRENCH SET SAFETY INSTRUCTIONS

## Introduction

Thank you for choosing the Bondhus Gorilla Wrench Set. This comprehensive set includes metric, standard, and Torx wrenches designed for various applications. To ensure your safety and the optimal use of this product, please read and follow these safety instructions carefully.

## General Safety Guidelines

- Always inspect the wrenches before use for any signs of damage or wear.
- Use the correct size wrench for the fastener to prevent stripping or damaging the fastener.
- Store the wrenches in a dry place to avoid rust and corrosion.
- Keep the wrenches out of reach of children and vulnerable individuals.
- Follow all local regulations and guidelines when using tools.

## Specific Safety Precautions for Use

- Ensure that you are wearing appropriate personal protective equipment (PPE), such as safety glasses and gloves, when using the wrenches.
- Avoid using excessive force when tightening or loosening fasteners, as this can lead to tool failure or injury.
- Do not use the wrenches for purposes other than their intended use.
- Be cautious of pinch points when using the wrenches, especially in tight spaces.
- If you feel any discomfort or pain while using the wrenches, stop using them immediately and consult a professional.

## Instructions for Installation and Usage

### 1. Selecting the Right Wrench:

- Choose the appropriate size wrench for the fastener you are working with.
- Ensure that the wrench fits snugly on the fastener.

### 2. Using the Wrench:

- Position the wrench on the fastener and apply pressure slowly.
- For loosening, turn the wrench counterclockwise; for tightening, turn it clockwise.
- If resistance is met, do not force the wrench. Instead, check for obstructions or switch to a different tool if necessary.

### 3. Maintenance:

- After use, clean the wrenches with a dry cloth to remove any dirt or grease.
- Store the wrenches in their designated holder or case to prevent damage.

## Disposal Instructions

- Dispose of any damaged or unusable wrenches in accordance with local regulations.
- Do not dispose of wrenches in general waste if they contain hazardous materials.
