

308 WINCHESTER BRASS CASE - 308 WINCHESTER MATCH BRASS 50/BOX

[Reloading](#) > [Brass](#) > [Rifle Brass](#)

Hornady unprimed brass features tight tolerances, uniform concentricity, consistent weight and capacity. Their manufacturing processes ensure consistent bullet seating and uniform bullet release for optimal velocity and accuracy. Target shooters insist on uniform case wall thickness and tight tolerances. Hornady delivers this by treating brass as the foundation for an accurate cartridge, not as a commodity.

Attributes

- Name: [308 WINCHESTER MATCH BRASS 50/BOX](#)

Safety Instruction Guide for 308 Winchester Brass Case

Introduction

Thank you for choosing Hornady 308 Winchester Brass Case. This guide provides important safety instructions to ensure the safe use and handling of this product. Please read this guide carefully before using the brass cases.

General Safety Guidelines

- Always handle ammunition components with care and respect.
- Ensure you are of legal age and have the necessary permits to use this product.
- Store brass cases in a cool, dry place away from direct sunlight and moisture.
- Keep all ammunition components out of reach of children and unauthorized persons.
- Regularly check for updates on safety and recall information through the EU Safety Gate platform.

Specific Safety Precautions for Use

- Inspect brass cases for any signs of damage or defects before use.
- Do not use brass cases that are corroded, cracked, or otherwise compromised.
- Use only the recommended type and weight of bullets for your specific loading.
- Follow proper loading techniques to avoid overcharging or undercharging.
- Wear appropriate safety gear, including eye and ear protection, when reloading and shooting.

Instructions for Installation and Usage

1. Preparation for Reloading:

- Gather all necessary tools and materials, including a reloading press, dies, powder, bullets, and safety equipment.
- Ensure your workspace is clean and organized.

2. Inspecting Brass Cases:

- Check each brass case for cleanliness and integrity.
- Clean cases if necessary using a suitable method (e.g., tumbling or ultrasonic cleaning).

3. Reloading Process:

- Insert the brass case into the reloading press.
- Follow the specific instructions for your reloading dies to resize and deprime the case.
- Add the appropriate amount of powder using a reliable powder scale.
- Seat the bullet according to the manufacturer's specifications for depth and crimp.

4. Final Inspection:

- After reloading, visually inspect each cartridge for proper assembly.
- Ensure that the bullet is seated correctly and that there are no visible defects.

5. Storage of Reloaded Ammunition:

- Store reloaded ammunition in a designated, secure location.
- Label containers with relevant information, including caliber and load data.

Disposal Instructions

- Dispose of any damaged or unusable brass cases in accordance with local regulations.
- Do not throw brass cases in regular trash; consider recycling options where available.
- Ensure that all components are disposed of safely to prevent environmental contamination.

Contact Information for Further Support

For any safety inquiries or concerns regarding the 308 Winchester Brass Case, please refer to the designated EU contact point provided by the manufacturer or retailer.

By following these guidelines, you can ensure the safe and effective use of your Hornady 308 Winchester Brass Case. Always prioritize safety and stay informed about best practices in ammunition handling and reloading.
