

25-06 REMINGTON PREMIUM BRASS - 25-06 REMINGTON BRASS 50/BOX

[Reloading](#) > [Brass](#) > [Rifle Brass](#)

NOSLER 25-06 REMINGTON PREMIUM BRASS Nosler® Premium Brass is designed for those who want to take finding the perfect load into their own hands. Fully prepped and ready to load, we've gone ahead and done the meticulous case prep work for you. Each piece is chamfered, deburred, checked for proper alignment, sized and trimmed to proper length. The brass is then hand-inspected to ensure exact dimensional standards and tolerances are met, allowing for maximum accuracy and consistency. Serving shooters time after time without sacrificing performance, Nosler® Premium Brass is made with quality materials for optimum case life and unmatched reloadability. Nosler takes a few extra steps with their brass to make it a premium component for the handloader. The brass is first weigh-sorted to within + or - 0.5 grains, then the flash holes are deburred. Nosler completes the case prep with neck sizing and chamfering the inside and outside of the case mouth. All Nosler unprimed brass bears the Nosler headstamp. FEATURES Fully prepped, ready to load. Case mounts chamfered and deburred Hand-inspected and weight-sorted Flash holes are deburred and checked for proper alignment Full length sized and trimmed to proper length

Safety Instruction Guide for 2506 Remington Premium Brass

Introduction

Thank you for choosing Nosler 2506 Remington Premium Brass. This guide provides essential safety instructions to ensure the safe use of this product. Please read and follow these instructions carefully to avoid any potential hazards and to maximize the performance of your brass.

General Safety Guidelines

- **Product Safety:** Ensure that you handle all nonfood products, including ammunition components, with care. Follow all safety instructions and guidelines provided.
- **Enhanced Recalls:** Stay informed about any potential recalls. If you receive a notice regarding a recall, please follow the instructions provided for returning or remedying the product.
- **Online Shopping:** When purchasing online, ensure that the retailer complies with safety requirements similar to those found in physical stores.
- **Special Consumer Focus:** Extra caution is advised when using this product around vulnerable groups, including children. Keep all ammunition components out of reach.
- **EU Contact Point:** For safety inquiries, ensure you have access to a local EU-based contact.
- **Rapid Alerts:** Regularly check the EU Safety Gate platform for updates on unsafe products.

Specific Safety Precautions for Use

- **Handling:** Always handle brass and ammunition components with clean, dry hands to avoid contamination.
- **Storage:** Store brass in a cool, dry place, away from direct sunlight and moisture to prevent deterioration.
- **Inspection:** Before use, inspect each piece of brass for any signs of damage or wear. Do not use damaged brass.
- **Reloading:** Follow safe reloading practices. Ensure you are familiar with the reloading process and adhere to recommended load data.
- **Protective Gear:** Always wear appropriate protective gear, such as safety glasses and gloves, when reloading or handling brass.

Instructions for Installation and Usage

1. Preparation:

- Ensure that your workspace is clean and organized.
- Gather all necessary tools and materials for reloading.

2. Loading the Brass:

- Begin by weighing the brass to ensure it is within the specified range (+/- 0.5 grains).
- Deburr the flash holes if necessary and check for proper alignment.
- Size and trim the brass to the appropriate length as per the reloading specifications.

3. Final Inspection:

- After loading, conduct a final inspection of each cartridge for any irregularities.
- Ensure that all loaded rounds are properly seated and crimped.

4. Firing:

- Use the loaded brass only in compatible firearms. Consult your firearm's manual for specific recommendations.
- Always follow standard firearm safety practices when handling and firing ammunition.

Disposal Instructions

- Dispose of any unused or damaged brass in accordance with local regulations.
- Do not throw brass into regular trash. Instead, consider recycling options available in your area for metal components.
- Ensure that all spent cartridges are handled safely and disposed of properly.

Contact Information for Further Support
