

NT-1000 STANDARD NECK TURNING KIT, 17 CALIBER

[Reloading](#) > [Case Preparation](#) > [Neck Turning](#) > [Neck Turning Tools](#)

Our standard neck turning tool has served thousands of handloaders for over two decades. This tool comes complete with our stainless steel universal handle and cutter. The neck turner cutter is made from hand-stoned high-speed tool steel and will cut thousands of cases before needing replacement. Each tool requires the use of our Sinclair mandrels. Our NT-1000 neck Turning Kits include the NT-1000 Neck Turner, our Generation II Expander Die (05-3000), a Neck Turning mandrel and an Expander Mandrel. Both included mandrels are turned from high grade stainless steel on precision turning centers. The Expander mandrel is sized .001 under bullet diameter and the Turning mandrels are .002 below bullet diameter. This allows for the perfect fit to avoid galling the inside of your cases during the turning process. For additional technical information regarding neck turning, please feel free to call our 800 number and speak to any of our reloading technicians.

NT1000 STANDARD NECK TURNING KIT Safety Instructions

Introduction

Thank you for choosing the NT1000 Standard Neck Turning Kit, designed for precision neck turning of cartridge cases. This guide provides important safety instructions and best practices to ensure safe and effective use of the product. Please read this manual thoroughly before using the kit.

General Safety Guidelines

- Always follow the manufacturer's instructions for safe use.
- Ensure that the workspace is clean, organized, and free of hazards.
- Use appropriate personal protective equipment (PPE) such as safety glasses and gloves.
- Keep the tool and its components out of reach of children and unauthorized users.
- Regularly inspect the tool for wear and damage before use.
- Report any unsafe conditions or product malfunctions to the manufacturer.

Specific Safety Precautions for Use

- Ensure that the neck turning cutter is securely attached to the handle before use.
- Do not exceed the manufacturer's recommended cutting speed to prevent tool breakage.
- Use the appropriate mandrel size for your specific cartridge case to ensure a proper fit.
- Always turn the cutter away from your body to minimize the risk of injury.
- Avoid wearing loose clothing or jewelry that could become entangled in the tool during operation.
- If you experience any discomfort or unusual noise while using the tool, stop immediately and inspect it for issues.

Instructions for Installation and Usage

1. Setup:

- Select the appropriate Sinclair mandrel for your cartridge case.
- Attach the mandrel securely to the neck turner.
- Ensure that the neck turner cutter is properly installed on the handle.

2. Usage:

- Insert the cartridge case into the mandrel.
- Adjust the cutter to the desired depth of cut.
- Rotate the handle smoothly and steadily to begin the neck turning process.
- Monitor the cutting action to ensure a consistent and even cut.

3. PostUse:

- After use, clean the tool and components to remove any debris or residue.
- Store the tool in a dry, safe place away from moisture and direct sunlight.
- Regularly check the cutter for signs of wear and replace it as necessary.

Disposal Instructions

- Dispose of any worn or damaged components in accordance with local regulations.
- Do not dispose of the tool in regular household waste.

- Consider recycling options for metal components where available.

Contact Information for Further Support

For any questions or concerns regarding the NT1000 Standard Neck Turning Kit, please reach out to our customer support team. They are available to provide assistance and further information.

Thank you for your attention to these safety instructions. Enjoy using your NT1000 Standard Neck Turning Kit responsibly and safely!
