# Safety Instructions for RCBS 3DIE CARBIDE ROLL CRIMP SET

## Introduction

Thank you for choosing the RCBS 3DIE CARBIDE ROLL CRIMP SET for your reloading needs. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read this manual carefully before using the product.

## General Safety Guidelines

- Always follow the manufacturer's instructions and guidelines.
- Ensure the workspace is clean, organized, and welllit.
- Keep the product out of reach of children and unauthorized users.
- Use personal protective equipment (PPE) such as safety glasses and gloves when reloading.
- Regularly inspect the equipment for wear and damage before use.
- Report any unsafe products or accidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- **Cartridge Compatibility:** This set is designed for 357 Magnum and 38 Special cartridges only. Do not use with other calibers.
- **Proper Handling:** Always handle tools and components with care to avoid injury.
- **Avoid Overloading:** Follow recommended load data to prevent dangerous overpressure situations.
- **Ventilation:** Ensure adequate ventilation when working with powders and primers to avoid inhalation of harmful substances.
- **Storage:** Store components in a cool, dry place away from direct sunlight and moisture.
- **DistractionFree Environment:** Avoid distractions while reloading to maintain focus and safety.

## Instructions for Installation and Usage

### 1. Setup:

- Ensure the reloading press is securely mounted and stable.
- Gather all necessary tools and components before beginning the reloading process.

### 2. Installation of Dies:

- Remove the existing dies from the press if applicable.
- Install the sizing die first, followed by the expanding die, and finally the crimping die.
- Follow the manufacturer's instructions for adjusting the dies to the correct settings.

### 3. Reloading Process:

- Start by resizing the brass casing using the sizing die.
- Expand the case mouth using the expanding die to accept the bullet.
- Place the bullet into the case mouth and use the crimping die to secure it in place.
- Inspect each completed cartridge for proper assembly and function.

### 4. Cleaning and Maintenance:

- Clean the dies regularly to prevent buildup of residue.

- Lubricate moving parts as recommended by the manufacturer.
- Store the dies in a protective case to avoid damage.

## **Disposal Instructions**

- Dispose of any unused or expired reloading components according to local regulations.
- Do not dispose of hazardous materials in regular trash. Follow local guidelines for hazardous waste disposal.
- Ensure that all packaging materials are recycled or disposed of properly.

## **Contact Information for Further Support**

For any safety inquiries or further assistance, please consult the manufacturer or your local distributor. Ensure you have your product information available when seeking support.

By following these safety instructions, you can help ensure a safe and enjoyable reloading experience with your RCBS 3DIE CARBIDE ROLL CRIMP SET. Always prioritize safety and responsible handling of all reloading components.
