

# MEC 8567N GRABBER SHELL PRESS - 8567N GRABBER SHOT SHELL PRESS 20 GAUGE

[Reloading](#) > [Reloading Presses](#) > [Shotshell Presses](#)

The 8567N Grabber gives you high-speed, efficient operation with unbeatable precision. Ten different operations are performed at six stations to produce a finished shell with every stroke of the handle. The Grabber is equipped with a fully automatic primer feed, as well as auto-cycle charging, and our exclusive three-stage crimp. The "Power Ring" resizer gives consistent, accurately-sized shells for optimum gun performance, without interrupting the reloading sequence. Simply put in the wads and shell casings and remove a loaded shell with each pull of the handle. Resizes high and low base shells. Available in 12, 16, 20, 28 gauge, and .410 bore, and includes three powder bushings for the particular gauge/bore. Die sets are not available to convert the 8567N Grabber to other gauges. Optional conversion kits for reloading 3" shells (not available in .410 gauge), or steel shot.

# MEC 8567N Grabber Shell Press Safety Instructions

## Introduction

Thank you for choosing the MEC 8567N Grabber Shell Press. This product is designed for highspeed, efficient operation in reloading shotgun shells. To ensure safe and effective use of this equipment, please read and follow these safety instructions carefully.

## General Safety Guidelines

- Ensure that the workspace is clean, dry, and welllit.
- Always wear appropriate personal protective equipment (PPE), including safety glasses and gloves.
- Keep the area around the shell press free from clutter and distractions.
- Do not operate the shell press if you are tired or under the influence of substances that may impair your judgment or coordination.
- Always follow the manufacturer's instructions for use and maintenance.
- Store the shell press and all components in a secure location, out of reach of children and unauthorized users.
- Regularly inspect the shell press for any signs of wear or damage. Do not use if damaged.

## Specific Safety Precautions for Use

- Only use the MEC 8567N Grabber Shell Press for reloading 20gauge shotgun shells.
- Do not attempt to convert the shell press to other gauges using die sets, as this may pose safety risks.
- Follow the instructions for the automatic primer feed and autocycle charging carefully to avoid malfunctions.
- When inserting wads and shell casings, ensure that your hands are clear of moving parts.
- Do not overload the shell press beyond its specified capacity.
- Keep fingers and hands clear of the handle during operation.
- In case of a malfunction, stop using the shell press immediately and consult the troubleshooting section of the manual.

## Instructions for Installation and Usage

### 1. Installation:

- Place the MEC 8567N Grabber Shell Press on a stable, flat surface.
- Secure the shell press to the surface using screws or clamps, if necessary, to prevent movement during operation.
- Ensure that the automatic primer feed is correctly installed and functioning properly.

### 2. Usage:

- Read the manual thoroughly before operating the shell press.
- Load the appropriate wads and shell casings into the press.
- Pull the handle to begin the reloading process. A finished shell will be produced with each stroke.
- Monitor the operation closely and make adjustments as needed to maintain consistent shell quality.
- After use, clean the shell press according to the maintenance guidelines provided in the manual.

## **Disposal Instructions**

- Dispose of any empty shell casings and packaging in accordance with local waste management regulations.
- Do not dispose of any parts of the MEC 8567N Grabber Shell Press in regular trash if they are considered hazardous.
- Contact your local waste disposal facility for guidance on the proper disposal of any hazardous materials.

## **Contact Information for Further Support**

For any questions or concerns regarding the MEC 8567N Grabber Shell Press, please refer to the manufacturer's customer support resources.

## **Conclusion**

By following these safety instructions, you can ensure a safe and productive reloading experience with the MEC 8567N Grabber Shell Press. Always prioritize safety and stay informed about best practices in reloading. Thank you for your attention to these important guidelines.
