

# SCIROCCO II BONDED BULLETS - 22 CALIBER (0.224") 75GR BOAT TAIL 100/BOX

[Reloading](#) > [Bullets](#) > [Rifle Bullets](#)

Scirocco® II, with the Signature Black Tip™, is a superbly accurate hunting bullet designed for long-range efficiency. It carries velocity and energy better than any of its competitors. Its sleek design and high ballistic coefficient produces the flattest trajectory in downrange hunting, making it a perfect match for long-range cartridges. The Scirocco® II produces positive expansion at minimal velocities as well as controlled expansion and high weight retention at close range. No other tipped bullet offers the terminal range of Scirocco™ II. Polymer tip initiates expansion and is precisely shaped to reduce frontal air resistance Advanced secant ogive nose profile allows high ballistic coefficient Pure copper jacket is progressively tapered to control expansion development throughout a wide range of velocities Jacket and core are joined together using proven Swift bonding technology Long driving band for improved rotational stability Boat tail base profile reduces drag and eases seating. Thick base prevents bullet deformation in high-velocity magnum calibers.
