

# FORM AND TRIM DIE, 45 ACP/45 AUTO RIM - REDDING FORM AND TRIM DIE, 45 ACP/45 AUTO RIM

[Reloading](#) > [Reloading Dies](#) > [Handgun Dies](#)

Redding case forming dies are designed to shape the parent cartridge (original case) into the desired case by changing the brass in small increments. This method avoids overworking the brass and helps prolong the case life of the finished product. After using all the form dies and form and trim dies required, it is also necessary to full length resize. In the drop down box are a few forming dies that we stock. Please see the Redding catalog for a listing of form die sets available, plus form dies available as custom dies. We can special order all other form dies that Redding has available.

## Attributes

# FORM AND TRIM DIE Safety Instruction Guide

## Introduction

Thank you for purchasing the Redding Form and Trim Die for 45 ACP/45 Auto Rim. This guide provides essential safety instructions and usage information to ensure safe and effective operation of the product. Please read this guide carefully before using the die.

## General Safety Guidelines

- Ensure that the die is used only for its intended purpose: forming and trimming 45 ACP/45 Auto Rim cartridges.
- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when operating the die.
- Keep the work area clean and welllit to avoid accidents.
- Store the die in a dry place, away from moisture and extreme temperatures, to prevent damage.
- Be aware of your surroundings and ensure that children and pets are kept at a safe distance when using the die.

## Specific Safety Precautions for Use

- Before using the die, inspect it for any signs of damage or wear. Do not use if the die is damaged.
- Use the die only with compatible reloading equipment to avoid malfunction.
- Follow the manufacturer's instructions for the setup and operation of the die.
- Never exceed the recommended load limits when using the die, as this may cause injury or damage to the die.
- If you experience any unusual noises or resistance while using the die, stop immediately and inspect the equipment.

## Instructions for Installation and Usage

### 1. Installation

- Ensure that your reloading press is securely mounted and stable.
- Insert the Redding Form and Trim Die into the reloading press according to the manufacturer's instructions.
- Tighten the die securely to prevent movement during operation.

### 2. Usage

- Prepare your brass cases by cleaning them thoroughly to remove any dirt or debris.
- Insert a brass case into the die, ensuring it is properly aligned.
- Operate the reloading press to form and trim the case according to your desired specifications.
- After using the die, remove the formed cases and inspect them for quality and safety.
- Perform a fulllength resize after using the form and trim die for optimal results.

## Disposal Instructions

- Dispose of any damaged or wornout dies in accordance with local regulations.
- Recycle brass cases if possible, following your local recycling guidelines.
- Do not dispose of the die in regular household waste; check for special disposal options in your area.

## Contact Information for Further Support

For safety inquiries and additional support, please refer to the manufacturer's website or contact your local distributor for assistance.

By following these safety guidelines and instructions, you can ensure a safe and effective experience with your Redding Form and Trim Die. Always prioritize safety and stay informed about best practices for reloading.
