

# NECK SIZING DIES - REDDING NECK SIZING DIE 30 TC

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Redding Neck Sizing Dies size only the necks of your bottleneck cases to prolong brass life and improve accuracy. It is important that fired cases should never be interchanged between rifles since the neck sizing dies do not size the shoulder or body. Ideal for cartridges used in Bolt Action rifles. All dies are made using the finest alloy steels obtainable and machined on Hardinge Super-Precision lathes capable of holding the tightest tolerances in the industry. Heat treated in atmospherically controlled furnaces and hand polished for smooth, flawless functioning, these dies will maintain tolerances and last a lifetime. Inspected and ultrasonically cleaned before packaging.

## Attributes

- Name: [REDDING NECK SIZING DIE 30 TC](#)
- Manufacturer: [REDDING](#)
- Product no.: 749011000

# Safety Instruction Guide for Redding Neck Sizing Die 30 TC

## Introduction

Thank you for choosing the Redding Neck Sizing Die 30 TC. This guide provides essential safety information and instructions to ensure safe and effective use of the product. Please read this guide carefully before using the die to ensure your safety and the safety of others.

## General Safety Guidelines

- Always use the die in accordance with the manufacturer's instructions.
- Inspect the die for any signs of damage before use. Do not use if damaged.
- Keep the die and all related tools out of reach of children and vulnerable individuals.
- Ensure that your workspace is clean and free from any hazards that could lead to accidents.
- Wear appropriate safety gear, such as safety glasses, when using the die.
- Be aware of your surroundings and ensure that no one is in close proximity while you are operating the die.

## Specific Safety Precautions for Use

- Do not interchange fired cases between different rifles. The neck sizing die only sizes the neck and does not address the shoulder or body.
- Ensure that the die is properly adjusted to avoid excessive sizing, which can lead to case damage.
- Avoid using the die with cases that have been previously resized with different methods unless properly prepared.
- Always follow the recommended procedures for cleaning and maintaining the die to ensure optimal performance and safety.
- If you experience any unusual resistance or difficulty while using the die, stop immediately and inspect for any issues.

## Instructions for Installation and Usage

### 1. Installation:

- Secure the die in a compatible reloading press according to the manufacturer's instructions.
- Ensure that the die is tightened properly to prevent any movement during operation.

### 2. Usage:

- Prepare your fired brass cases by cleaning them thoroughly.
- Insert the case into the die and ensure it is seated correctly.
- Operate the reloading press smoothly and consistently to size the neck of the case.
- After sizing, remove the case from the die and inspect it for any signs of damage.

## Disposal Instructions

- Dispose of any damaged or wornout dies in accordance with local regulations regarding metal waste.
- Do not dispose of the die in regular household waste; check for recycling options or hazardous waste disposal facilities.

## Contact Information for Further Support

For any safety inquiries or concerns regarding the Redding Neck Sizing Die 30 TC, please refer to the manufacturer's contact information provided in the product packaging or visit their official website.

## Conclusion

Your safety is our priority. By following these guidelines, you can ensure a safe and effective experience with the Redding Neck Sizing Die 30 TC. Always stay informed about product recalls and safety updates through official channels. Thank you for choosing Redding products.
