

# NECK SIZING DIES - REDDING NECK SIZING DIE 308 MARLIN EXPRESS

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Redding Neck Sizing Dies size only the necks of your bottleneck cases to prolong brass life and improve accuracy. It is important that fired cases should never be interchanged between rifles since the neck sizing dies do not size the shoulder or body. Ideal for cartridges used in Bolt Action rifles. All dies are made using the finest alloy steels obtainable and machined on Hardinge Super-Precision lathes capable of holding the tightest tolerances in the industry. Heat treated in atmospherically controlled furnaces and hand polished for smooth, flawless functioning, these dies will maintain tolerances and last a lifetime. Inspected and ultrasonically cleaned before packaging.

# NECK SIZING DIES Safety Instruction Guide

## Introduction

Thank you for choosing the Redding Neck Sizing Die for your 308 Marlin Express. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of this product. Please read this document carefully to understand how to operate the die safely and efficiently.

## General Safety Guidelines

- Always ensure that your work area is clean and free of obstructions.
- Use personal protective equipment (PPE) such as safety glasses and gloves while handling dies and reloading equipment.
- Keep the dies out of reach of children and unauthorized users.
- Do not use the dies for any purpose other than intended.
- Regularly inspect the dies for any signs of wear or damage before use.
- Ensure that you are familiar with your firearm and its specifications before using the neck sizing die.

## Specific Safety Precautions for Use

- Ensure that the neck sizing die is compatible with your specific rifle model.
- Do not interchange fired cases between different rifles, as this can lead to safety hazards.
- Always follow the manufacturer's instructions regarding the use and maintenance of the die.
- Avoid excessive force when resizing cases to prevent damage to the die and cases.
- Be cautious of sharp edges on the die that may cause injury.
- Store the die in a safe and dry location when not in use.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure the reloading press is securely mounted to a stable work surface.
- Insert the neck sizing die into the press according to the manufacturer's instructions.
- Adjust the die to the correct height for your specific cases.

### 2. Usage:

- Begin by cleaning your fired cases to remove debris and carbon buildup.
- Insert the case into the die and apply a steady, even pressure to resize the neck.
- Inspect the resized case for any defects or irregularities before use.
- Repeat the process for all cases to be resized.

### 3. PostUsage Care:

- Clean the die after use to remove any residual brass or debris.
- Store the die in its original packaging or a protective case to prevent damage.

## Disposal Instructions

- Dispose of any damaged or worn dies in accordance with local regulations.
- Recycle packaging materials when possible.
- Do not dispose of dies in regular household waste.

## **Contact Information for Further Support**

For any safety inquiries or further assistance regarding the Redding Neck Sizing Die, please refer to the manufacturer's contact information provided with your product packaging.

Thank you for prioritizing safety while using the Redding Neck Sizing Die. By following these guidelines, you can ensure a safe and effective reloading experience.
