

# NECK SIZING DIES - REDDING NECK SIZING DIE 370 SAKO MAG

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Redding Neck Sizing Dies size only the necks of your bottleneck cases to prolong brass life and improve accuracy. It is important that fired cases should never be interchanged between rifles since the neck sizing dies do not size the shoulder or body. Ideal for cartridges used in Bolt Action rifles. All dies are made using the finest alloy steels obtainable and machined on Hardinge Super-Precision lathes capable of holding the tightest tolerances in the industry. Heat treated in atmospherically controlled furnaces and hand polished for smooth, flawless functioning, these dies will maintain tolerances and last a lifetime. Inspected and ultrasonically cleaned before packaging.

## Attributes

- Name: [REDDING NECK SIZING DIE 370 SAKO MAG](#)
- Manufacturer: [REDDING](#)
- Product no.: 749011002

# NECK SIZING DIES REDDING NECK SIZING DIE 370 SAKO MAG Safety Instruction Guide

## Introduction

Thank you for choosing the Redding Neck Sizing Die for your reloading needs. This guide provides essential safety instructions to ensure the safe and effective use of the product. Please read this document carefully before use to understand the safety precautions and proper handling of the die.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose: sizing the necks of bottleneck cases.
- Always work in a wellventilated area to minimize exposure to any fumes or dust generated during reloading.
- Keep the work area clean and organized to avoid accidents.
- Store the dies in a safe location, out of reach of children and unauthorized users.
- Wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when handling reloading materials and equipment.
- Regularly inspect the die for any signs of wear or damage. If you notice any issues, discontinue use and consult a qualified technician.

## Specific Safety Precautions for Use

- Only use the neck sizing die with compatible cartridges, specifically the 370 Sako Mag.
- Do not interchange fired cases between different rifles, as this may lead to safety hazards and accuracy issues.
- Avoid overtightening the die during installation to prevent damage to the die or press.
- Follow the manufacturer's instructions for adjusting the die to ensure proper sizing and functioning.
- Ensure that the reloading press is securely mounted to prevent movement during operation.
- Always keep hands and body clear of the die and press during operation to avoid injury.
- When resizing cases, maintain a steady and controlled motion to ensure consistent results.

## Instructions for Installation and Usage

### 1. Installation:

- Unpack the die and inspect it for any damage.
- Securely mount the die in your reloading press according to the manufacturer's instructions.
- Adjust the die to the desired depth for sizing, ensuring it is properly aligned with the press.

### 2. Usage:

- Prepare your fired cases by cleaning them to remove any debris.
- Insert the case into the die and operate the press slowly and steadily.
- After resizing, remove the case and check for proper neck tension and fit.
- Repeat the process for each case, ensuring consistent operation.

## Disposal Instructions

- Dispose of any damaged or worn dies in accordance with local regulations.
- Recycle packaging materials where possible.
- Do not dispose of used reloading materials in regular waste; follow local hazardous waste disposal guidelines.

## **Contact Information for Further Support**

For any safety inquiries or further assistance regarding the Redding Neck Sizing Die, please refer to the manufacturer's official website or customer support resources.

By following these safety guidelines and instructions, you can ensure a safe and effective reloading experience with your Redding Neck Sizing Die. Thank you for your attention to safety!
