

NECK SIZING DIES - REDDING NECK SIZING DIE 6.5MM CREEDMOOR

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Redding Neck Sizing Dies size only the necks of your bottleneck cases to prolong brass life and improve accuracy. It is important that fired cases should never be interchanged between rifles since the neck sizing dies do not size the shoulder or body. Ideal for cartridges used in Bolt Action rifles. All dies are made using the finest alloy steels obtainable and machined on Hardinge Super-Precision lathes capable of holding the tightest tolerances in the industry. Heat treated in atmospherically controlled furnaces and hand polished for smooth, flawless functioning, these dies will maintain tolerances and last a lifetime. Inspected and ultrasonically cleaned before packaging.

Safety Instruction Guide for Redding Neck Sizing Die 6.5mm Creedmoor

Introduction

Thank you for purchasing the Redding Neck Sizing Die for 6.5mm Creedmoor. This product is designed to size only the necks of your bottleneck cases, enhancing the longevity of your brass and improving accuracy. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Always ensure that you are using the correct die for your specific caliber.
- Inspect the die for any damage before use. Do not use if damaged.
- Keep the die out of reach of children and vulnerable individuals.
- Use the die only for its intended purpose as described in the product specifications.
- Follow all local laws and regulations regarding the use of reloading equipment.
- Report any unsafe products or accidents to the relevant authorities.
- Regularly check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Ensure that you are wearing appropriate safety gear, including eye protection, when using the die.
- Do not interchange fired cases between different rifles, as neck sizing dies do not size the shoulder or body.
- Handle all components of the reloading process with care to avoid accidents.
- Follow the manufacturer's guidelines for compatible cartridges and reloading practices.
- Be aware of the potential hazards associated with reloading, including the risk of explosion and injury.

Instructions for Installation and Usage

1. Installation:

- Ensure your reloading press is securely mounted and stable.
- Insert the Redding Neck Sizing Die into the reloading press according to the manufacturer's instructions.
- Tighten the die securely to prevent movement during operation.

2. Usage:

- Adjust the die according to the specifications for your 6.5mm Creedmoor cartridges.
- Insert the fired case into the shell holder of your reloading press.
- Operate the press to size the neck of the case, ensuring smooth and even operation.
- Inspect the sized case for any defects before proceeding with further reloading steps.

Disposal Instructions

- Dispose of any damaged or unusable dies in accordance with local regulations.
- Do not dispose of the die in regular household waste. Check for recycling programs or hazardous waste disposal options in your area.

Contact Information for Further Support

For additional support or inquiries regarding the Redding Neck Sizing Die, please refer to the manufacturer's contact information provided with the product packaging.

Thank you for prioritizing safety while using the Redding Neck Sizing Die. Your adherence to these guidelines will help ensure a safe and effective reloading experience.
