

# NECK SIZING DIES - REDDING NECK SIZING DIE 6.5MM-300 WSM

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Redding Neck Sizing Dies size only the necks of your bottleneck cases to prolong brass life and improve accuracy. It is important that fired cases should never be interchanged between rifles since the neck sizing dies do not size the shoulder or body. Ideal for cartridges used in Bolt Action rifles. All dies are made using the finest alloy steels obtainable and machined on Hardinge Super-Precision lathes capable of holding the tightest tolerances in the industry. Heat treated in atmospherically controlled furnaces and hand polished for smooth, flawless functioning, these dies will maintain tolerances and last a lifetime. Inspected and ultrasonically cleaned before packaging.

## Attributes

# Safety Instruction Guide for Redding Neck Sizing Die 6.5MM300 WSM

## Introduction

Thank you for choosing the Redding Neck Sizing Die 6.5MM300 WSM. This product is designed to enhance the accuracy and longevity of your bottleneck cases. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

## General Safety Guidelines

- Always follow the manufacturer's instructions when using the die.
- Ensure that the die is compatible with your specific rifle and cartridges.
- Regularly inspect the die for any signs of wear or damage before each use.
- Keep the die and all reloading equipment out of reach of children.
- Use appropriate personal protective equipment (PPE) such as safety glasses and gloves when handling ammunition components.
- Be aware of your surroundings when reloading to prevent accidents.

## Specific Safety Precautions for Use

- Only use the die with the recommended cartridges (6.5/300 WSM).
- Do not interchange fired cases between different rifles, as this can lead to safety hazards.
- Avoid overtightening the die during installation, as this may cause damage or malfunction.
- Ensure that your workspace is clean and organized to prevent accidents.
- Do not attempt to modify or repair the die yourself; seek professional assistance if needed.
- Always follow safe reloading practices, including proper handling and storage of powder and primers.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure the reloading press is securely mounted and stable.
- Remove any existing dies from the press.
- Carefully screw the Redding Neck Sizing Die into the press until it is snug. Do not overtighten.
- Set the die to the desired depth according to the manufacturer's guidelines.

### 2. Usage:

- Start with clean, fired cases. Inspect each case for damage before resizing.
- Insert the case into the shell holder of the press.
- Operate the press to resize the neck of the case, following the manufacturer's instructions for stroke and pressure.
- After resizing, check the neck tension and ensure it meets your specifications.

### 3. PostUse Maintenance:

- Clean the die after each use to remove any debris or lubricant.
- Store the die in a dry, cool place to prevent rust and corrosion.

## **Disposal Instructions**

- Dispose of any damaged or worn dies in accordance with local regulations.
- If the product is no longer usable, consider recycling materials where possible.
- Do not dispose of the die in regular household waste.

## **Contact Information for Further Support**

For any inquiries or concerns regarding the Redding Neck Sizing Die, please consult the manufacturer's website or customer service for assistance. It is important to have access to support for safe usage and maintenance of the product.

By following these safety instructions, you can ensure a safe and effective reloading experience with your Redding Neck Sizing Die 6.5MM300 WSM. Always prioritize safety and stay informed about best practices in ammunition handling and reloading.
