

# SEATER DIES - REDDING SEATER DIE 30 TC

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Redding Seating Die includes bullet guide, built-in crimp ring and the proper seating plug. All dies are made using the finest alloy steels obtainable and machined on Hardinge Super-Precision lathes capable of holding the tightest tolerances in the industry. Heat treated in atmospherically controlled furnaces and hand polished for smooth, flawless functioning, these dies will maintain tolerances and last a lifetime. Inspected and ultrasonically cleaned before packaging.

# SEATER DIES REDDING SEATER DIE 30 TC Safety Instruction Guide

## Introduction

Thank you for choosing the Redding Seating Die 30 TC. This product is designed for precision bullet seating in rifle reloading. To ensure your safety and the optimal performance of this product, please read and follow the safety instructions outlined in this guide.

## General Safety Guidelines

- Ensure safe use of the Redding Seating Die by following the manufacturer's instructions.
- Be aware of potential risks associated with reloading equipment and ammunition.
- Always handle all reloading components with care to prevent accidents.
- If you are new to reloading, seek guidance from experienced users or professional resources.
- Regularly inspect the die for any signs of wear or damage before use.
- Keep the die and all reloading materials out of reach of children and vulnerable individuals.

## Specific Safety Precautions for Use

- Always wear appropriate safety gear, including safety glasses and gloves, when using reloading equipment.
- Ensure that your workspace is clean, welllit, and free from distractions.
- Do not exceed the recommended load data provided by bullet manufacturers.
- Avoid using damaged or wornout components, as they may lead to unsafe conditions.
- Follow proper procedures for handling and storing primers and powders to prevent accidental ignition.
- Always follow the manufacturer's specifications for the die and related components.
- Be cautious of any potential allergies to materials used in reloading components.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure that your reloading press is securely mounted and stable.
- Remove any existing dies from the press before installing the Redding Seating Die.
- Insert the Redding Seating Die into the press and tighten it securely.
- Adjust the die to the desired seating depth according to the bullet specifications.

### 2. Usage:

- Prepare your cartridge cases by cleaning and inspecting them for defects.
- Insert the bullet into the cartridge case and place it under the die.
- Slowly operate the press to seat the bullet to the desired depth.
- Inspect the seated bullet to ensure it is properly aligned and seated.
- Repeat the process for additional cartridges, maintaining consistency in seating depth.

## Disposal Instructions

- Dispose of any packaging materials in accordance with local waste management regulations.
- If the die is damaged or no longer usable, contact your local waste disposal service for guidance on proper disposal methods.
- Do not dispose of ammunition components in regular trash; follow local regulations for hazardous waste disposal.

## Contact Information for Further Support

For any safety inquiries or product support, please refer to the manufacturer's contact details provided on the product packaging or visit the official Redding website.

## Conclusion

By following these safety instructions, you can ensure a safe and effective reloading experience with the Redding Seating Die 30 TC. Always prioritize safety and adhere to best practices while reloading to enjoy the full benefits of your equipment. Thank you for your attention to these important safety guidelines.
