# Safety Instruction Guide for TYPE S DECAPPING ASSEMBLIES

## Introduction

Thank you for choosing the TYPE S Decapping Assembly by Redding. This product is designed for use with Type S full length sizing dies or Type S neck sizing dies, specifically for the 6 PPC and 6 mm Rem BR cartridges. To ensure your safety and the proper functioning of this product, please read and follow the safety instructions outlined in this guide.

## General Safety Guidelines

- Ensure that you handle all reloading equipment with care to prevent accidents.
- Always wear appropriate safety gear, including safety glasses, when using reloading products.
- Keep the work area clean and organized to avoid any hazards.
- Store all reloading components and tools out of reach of children and pets.
- Be aware of the potential hazards associated with reloading, such as exposure to lead and other materials.
- Regularly check for product recalls or safety alerts through official channels.

## Specific Safety Precautions for Use

- Before using the TYPE S Decapping Assembly, ensure that it is compatible with your reloading equipment.
- Do not attempt to modify or alter the decapping assembly in any way.
- Always ensure that the assembly is securely attached to the sizing die before use.
- Avoid overtightening the assembly, as this may lead to damage or malfunction.
- Do not use the decapping assembly if it shows signs of wear or damage.
- Follow the manufacturer's instructions for the proper use of the decapping assembly.
- Be cautious of sharp edges on the assembly that may cause injury.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure that your reloading press is turned off and unplugged before installation.
- Carefully remove the existing decapping pin or assembly from your sizing die.
- Align the TYPE S Decapping Assembly with the sizing die and insert it.
- Secure the assembly in place according to the manufacturer's instructions.
- Doublecheck that the assembly is firmly attached before proceeding.

### 2. Usage:

- Prepare your cartridges by ensuring they are clean and free from any obstructions.
- Insert the cartridge into the sizing die, ensuring it is seated properly.
- Operate the reloading press to decap the cartridge, following the manufacturer's guidelines for your specific press model.
- After use, remove any spent primers and clean the assembly regularly to maintain performance.

## Disposal Instructions

- Dispose of any worn or damaged components in accordance with local regulations.
- Do not throw away the product in regular household waste. Instead, check with local waste management authorities for proper disposal methods.

- Ensure that all hazardous materials, including spent primers and any contaminated components, are disposed of safely.

## Contact Information for Further Support

For any questions or concerns about the TYPE S Decapping Assembly, please refer to the manufacturer's website or contact their customer service for assistance. Ensure you have your product information ready to facilitate support.

By following these safety instructions, you can ensure a safe and effective reloading experience with your TYPE S Decapping Assembly. Always prioritize safety and stay informed about best practices in reloading.
