

TYPE S BUSHING FULL DIES - REDDING 260 REMINGTON ACKLEY IMPROVED BUSHING FULL LENGTH DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Full Length resizing while maintaining exact control of the case neck is often desirable in one operation. The Redding Type S Bushing Full Length Sizing Dies accomplish this task with the precision you would expect from Redding. Uses the same interchangeable bushings as those used in Redding bushing style neck sizing dies. The adjustable decapping rod allows you to adjust the bushing position, sizing only part of the neck length when desired. Concentricity is enhanced by the ability of the bushing to self-center on the neck of the cartridge case. All Type S dies are supplied with both the standard size button and a decapping pin retainer. By removing the bushing and all internal parts, the Type S Bushing Full Die may also be used as a body die.

Safety Instruction Guide for TYPE S BUSHING FULL DIES REDDING 260 REMINGTON ACKLEY IMPROVED BUSHING FULL LENGTH DIE

Introduction

Thank you for choosing the Redding Type S Bushing Full Length Die for your reloading needs. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read this guide carefully before use.

General Safety Guidelines

- Always wear appropriate safety gear, including safety glasses, when using reloading equipment.
- Keep the workspace clean and organized to prevent accidents.
- Store all reloading components, including dies, out of reach of children and pets.
- Ensure that you are familiar with all components of the die before use.
- Do not use the die for any purpose other than its intended use.
- Regularly inspect the die for any signs of wear or damage before each use.

Specific Safety Precautions for Use

- Ensure the die is securely mounted in a reloading press before use.
- Do not exceed the recommended load limits specified for the die.
- Be cautious when adjusting the bushing position; ensure the die is not in operation during adjustments.
- Avoid using the die with damaged or improperly sized cartridge cases.
- If a cartridge does not size properly, do not force it. Inspect the die and cartridge for issues.
- Follow all manufacturer recommendations for the use of interchangeable bushings.

Instructions for Installation and Usage

1. Installation:

- Securely mount the Type S Bushing Full Length Die in your reloading press according to the press manufacturer's instructions.
- Ensure the adjustable decapping rod is set to the desired position before beginning the resizing process.

2. Usage:

- Insert a clean cartridge case into the die.
- Pull the handle of the reloading press to resize the case. Ensure that the die is properly aligned with the press.
- After resizing, check the cartridge neck for proper fit and concentricity.
- If necessary, adjust the bushing position to achieve the desired neck sizing.
- Always use the standard size button and decapping pin retainer provided with the die.

Disposal Instructions

- Dispose of any damaged or wornout dies in accordance with local regulations.
- Ensure that all components are disposed of in a safe manner to prevent environmental contamination.
- Recycle materials whenever possible.

Contact Information for Further Support

For any inquiries regarding safety or product usage, please refer to the manufacturer's contact information provided with the product packaging.

By following these guidelines, you can ensure that your experience with the Redding Type S Bushing Full Length Die is safe and effective. Always prioritize safety when handling reloading equipment and components.
