

SINCLAIR BUMP GAGE INSERT - SINCLAIR INTERNATIONAL SHOULDER BUMP GAGE INSERT, #40A, 40 DEGREE, 25-338/ACKLEY

[Reloading](#) > [Measuring Tools](#) > [Case Gauges & Headspace Tools](#)

SINCLAIR BUMP GAGE INSERTS Sinclair Bump Gage Inserts are used to measure the amount of shoulder bump when setting up full length sizing dies. Our Bump Gages install in either of our comparator bodies and are machined to fit particular shoulder angles of cartridges. Rather than measuring to the datum line, these gages indicate off of the shoulder of the case to get a better, more easily assessable measurement of how much you are actually sizing your cases. We usually recommend between .001" to .002" bump for bolt action rifles and between .003" and .005" for AR-15 type rifles. Also a useful tool for keeping your brass and loaded ammunition separated if you have multiple rifles chambered for the same cartridge and checking loaded ammunition.

Safety Instruction Guide for SINCLAIR BUMP GAGE INSERT

Introduction

Thank you for choosing the Sinclair Bump Gage Insert. This product is designed to assist in measuring shoulder dimensions for various calibers, ensuring precise ammunition fitting. It is essential to follow safety guidelines to ensure safe and effective use. This guide provides you with necessary safety precautions, installation instructions, and disposal information to ensure your safety and the safety of others.

General Safety Guidelines

- Always handle the bump gage insert with care to avoid injury.
- Ensure that the work area is clean and free from obstructions.
- Keep the bump gage insert out of reach of children and unauthorized users.
- Regularly inspect the bump gage insert for any signs of wear or damage before use.
- Do not use the bump gage insert for any purposes other than its intended use.
- If you experience any issues while using the product, cease use immediately and consult a qualified professional.

Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when using the bump gage insert.
- Ensure that the firearm and ammunition are unloaded before using the bump gage insert.
- Do not exceed the specified caliber limits (25 to 338 caliber) when using the bump gage insert.
- Avoid using the bump gage insert in wet or damp conditions to prevent slipping and potential accidents.
- Be cautious of sharp edges on the bump gage insert to prevent cuts and injuries.

Instructions for Installation and Usage

1. Preparation:

- Ensure that the working environment is welllit and organized.
- Gather all necessary tools and materials before starting.

2. Installation:

- Insert the bump gage insert into the appropriate gauge holder.
- Ensure that the insert is securely positioned and locked in place if applicable.

3. Usage:

- Place the bump gage insert against the shoulder of the cartridge you wish to measure.
- Gently press to ensure proper contact without excessive force.
- Read the measurement indicated on the gage and record the results.
- Remove the bump gage insert carefully after use and store it in a safe location.

4. PostUsage:

- Clean the bump gage insert with a soft cloth to remove any debris or residue.
- Store the bump gage insert in a protective case to prevent damage.

Disposal Instructions

- Dispose of the bump gage insert in accordance with local regulations regarding electronic waste and tools.
- If the product is damaged beyond repair, consider recycling it if facilities are available.
- Do not dispose of the bump gage insert in regular household waste.

Contact Information for Further Support

For any inquiries or additional support regarding the Sinclair Bump Gage Insert, please refer to the manufacturer's website or contact your local distributor for assistance.

Thank you for your attention to these safety guidelines. Your safety is our priority, and following these instructions will help ensure a safe and effective experience with the Sinclair Bump Gage Insert.
