SINCLAIR GROUP MEASURING CALIPER ATTACHMENT - SINCLAIR INTERNATIONAL GROUP MEASURING CALIPER ATTACHMENT

Our group measuring attachments install quickly to your digital or dial caliper blades and enables you to measure your groups at home or at the range. Simply bracket the furthest two bullet holes from outside edge to quickly measure group size. Each Group Measuring device will measure three different calibers of bullets. The first model will measure groups of 22 caliber, 6mm and 30 caliber bullets. This device works great with our economy MIC-14 digital calipers. Caliper not included.

Sinclair Group Measuring Caliper Attachment (22, 6, 30cal)

Safety Instruction Guide for Sinclair Group Measuring Caliper Attachment

Introduction

Thank you for choosing the Sinclair Group Measuring Caliper Attachment. This guide provides essential safety instructions to ensure safe and effective use of the product. Please read this document carefully before using the measuring caliper attachment.

General Safety Guidelines

- Always use the measuring caliper attachment according to the instructions provided in this guide.
- Ensure that the product is kept out of reach of children and vulnerable individuals.
- Regularly inspect the caliper attachment for any signs of damage or wear before use.
- If you notice any defects or malfunctions, do not use the product. Contact the manufacturer for assistance.
- Be aware of your surroundings while using the caliper to avoid accidents and injuries.

Specific Safety Precautions for Use

- Handle the caliper attachment with care to avoid injury from sharp edges.
- Use the caliper attachment only for its intended purpose as specified in the product description.
- Do not modify the caliper attachment in any way, as this may compromise its safety and performance.
- When measuring, ensure that the object being measured is stable and secure to prevent slips or accidents.
- If using the caliper attachment in a workshop or industrial environment, wear appropriate personal protective equipment (PPE) such as safety glasses and gloves.

Instructions for Installation and Usage

1. **Installation**

    - Ensure that the measuring caliper attachment is compatible with your measuring device.
    - Follow the manufacturer's guidelines for attaching the caliper to your measuring device securely.
    - Check that all components are properly aligned and fastened before use.

2. **Usage**

    - To take a measurement, gently open the caliper jaws and place them around the object to be measured.
    - Slowly close the jaws until they make contact with the object, ensuring not to apply excessive force.
    - Read the measurement from the scale or digital display, if applicable.
    - After use, clean the caliper attachment with a soft cloth and store it in a safe place.

Disposal Instructions

- Dispose of the measuring caliper attachment in accordance with local regulations regarding electronic and mechanical waste.
- If the product is damaged beyond repair, recycle any metal components if possible.
- Do not dispose of the product in regular household waste.

Contact Information for Further Support

For any safety inquiries or additional support regarding the Sinclair Group Measuring Caliper Attachment, please refer to the manufacturer's contact information provided with the product packaging.

Remember, your safety is paramount. Report any unsafe products or incidents to the relevant authorities and check for recall updates on the EU's Safety Gate platform to stay informed about product safety. Thank you for prioritizing safety while using the Sinclair Group Measuring Caliper Attachment.
