

# GEN II UNIVERSAL FLASHHOLE DEBURRING TOOL - SINCLAIR INTERNATIONAL UNIVERSAL FLASH HOLE DEBURRING TOOL GEN 2, HANDLE ONLY

[Reloading](#) > [Case Preparation](#) > [Flash Hole Deburring Tools](#)

The Lastest version of our Model 1000 flash hole deburring tool features stainless steel construction and chip clearance slots which alleviate the tendency of the tool to collect chips in the end of the cutting shaft. This tool is inserted in the case mouth and uses the web of the case as a safety stop. A couple of turns will remove any burrs and leave a small chamfer on the inside edge of the flash hole. Flash hole deburring is a one-time operation. Since variations of case length do not affect the use of this tool, flash hole deburring is most easily performed on brand new brass without trimming. This tool is available as the 05-1000 standard Generation II flash hole tool which consists of the cutting shaft and the tapered guide. For handloaders who perfer a large, comfortable handle, this tool is also available as the 05-1255 which includes the Sinclair large grip handle found on many of our other tools. For handloaders who already own this or our previous Model 1000 Flash Hole Deburring Tool the large Sinclair handle is available separately as the 05-1320.

## Attributes

- Name: [SINCLAIR INTERNATIONAL UNIVERSAL FLASH HOLE DEBURRING TOOL GEN 2, HANDLE ONLY](#)
- Manufacturer: [SINCLAIR INTERNATIONAL](#)

# GEN II Universal Flashhole Deburring Tool Safety Instructions

## Introduction

Thank you for choosing the GEN II Universal Flashhole Deburring Tool from Sinclair International. This guide provides important safety instructions and guidelines to ensure the safe and effective use of this product. Please read and follow these instructions carefully.

## General Safety Guidelines

- Ensure safe use of the tool by following all instructions.
- This tool is designed for nonfood use and should not be used for any other purpose.
- Always keep the tool out of reach of children and vulnerable individuals.
- Be mindful of your surroundings while using the tool to avoid accidents.
- Regularly inspect the tool for any signs of wear or damage before use.
- Report any unsafe conditions or accidents to the appropriate authorities.

## Specific Safety Precautions for Use

- Use the tool only as intended, for deburring flash holes in brass cases.
- Always wear appropriate safety gear, including safety glasses, to protect your eyes from debris.
- Do not apply excessive force while using the tool; let the tool do the work.
- Ensure that the case is securely held in place before inserting the tool.
- Avoid using the tool near flammable materials or in hazardous environments.
- If you experience any discomfort or unusual sensations while using the tool, stop use immediately and consult a professional.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure that you have a clean, stable work area.
- Gather all necessary materials, including the GEN II Universal Flashhole Deburring Tool and brass cases to be deburred.

### 2. Installation:

- Insert the cutting shaft of the tool into the case mouth.
- Use the web of the case as a safety stop to prevent overinsertion.

### 3. Usage:

- Rotate the tool gently in a clockwise direction.
- A couple of turns will effectively remove any burrs and create a small chamfer on the inside edge of the flash hole.
- After use, remove the tool from the case and inspect the flash hole for any remaining burrs.

### 4. PostUse Care:

- Clean the tool after each use to prevent buildup of debris.
- Store the tool in a dry, safe location away from children.

## **Disposal Instructions**

- Dispose of the tool in accordance with local regulations for metal products.
- If the tool is damaged beyond repair, ensure it is disposed of safely to prevent injury to others.

## **Contact Information for Further Support**

For any questions or concerns regarding the GEN II Universal Flashhole Deburring Tool, please consult your retailer or manufacturer for assistance. Always ensure that you are following the latest safety guidelines and recommendations.

Thank you for your attention to these safety instructions. Your safety is our priority. Enjoy your experience with the GEN II Universal Flashhole Deburring Tool!
