

SINCLAIR BULLET SEATING DEPTH TOOL - SINCLAIR INTERNATIONAL 0.740" BULLET SEATING DEPTH GUIDE

[Reloading](#) > [Measuring Tools](#) > [Bullet Seating Depth Tools](#)

The Sinclair Bullet Seating Depth Tool has been used for decades by handloaders seeking the most accuracy out of their rifles. Our newest model is made from one fourth inch ground and polished stainless steel with one end turned down for use with 17 and 20 caliber rifles and the other end used for 22 caliber and up. This tool helps you determine the length of a loaded round touching the rifling. The Sinclair Seating Depth Tool will work with most bolt action, single shot and AR type rifles. The tool includes a Delrin action guide suitable for most bolt-action rifles (0.690" Diameter fits Remingtons, Savages, Winchester, and many Rugers). For the most accurate measurement, the Sinclair Bullet Seating Depth Tool uses your fireformed brass and bullets so you can expect an exact measurement, every time. Also available are guides use in AR-15's, AR-10's, and Tubb's 2000's. The guide is a little different than our standard bolt-action guides. This guide inserts into the back of the upper receiver (with the bolt removed). The tool is then used as normal. For best results couple this tool with our Bullet Comparators and a good set of calipers to get repeatable and precise Base-To-Ogive measurements.

Sinclair Seating Depth Guides, Sako TRG, Steyr, .740

Attributes

- Name: [SINCLAIR INTERNATIONAL 0.740" BULLET SEATING DEPTH GUIDE](#)

Safety Instruction Guide for SINCLAIR BULLET SEATING DEPTH TOOL

Introduction

Thank you for choosing the Sinclair Bullet Seating Depth Tool. This guide provides important safety information and instructions to ensure the safe use of this product. Please read this guide carefully before using the tool to ensure your safety and the safety of others.

General Safety Guidelines

- Ensure the tool is used only for its intended purpose as described in the product specifications.
- Always follow the manufacturer's instructions for use and maintenance.
- Keep the tool out of reach of children and vulnerable individuals.
- Regularly inspect the tool for any signs of damage or wear before each use.
- If you notice any defects, discontinue use immediately and contact customer support.

Specific Safety Precautions for Use

- Always wear appropriate safety gear, including safety glasses, when using the tool.
- Use the tool in a wellventilated area to avoid inhaling any particles.
- Do not exceed the recommended bullet seating depth specified for your firearm to prevent malfunction or accidents.
- Avoid using the tool while under the influence of drugs or alcohol.
- Ensure that all firearms are unloaded before using the tool.
- Follow all local laws and regulations regarding the use of firearm accessories.

Instructions for Installation and Usage

1. Preparation

- Ensure you have a clean, stable work surface.
- Gather all necessary tools and materials before starting.

2. Using the Seating Depth Tool

- Select the appropriate bullet seating depth guide based on your firearm model (e.g., Hall Express, Sako TRG, Steyr L, Steyr M, Steyr SSG).
- Insert the bullet into the seating die.
- Adjust the seating depth according to the specifications provided for your specific bullet type.
- Tighten the seating die securely to ensure accuracy during use.

3. PostUsage Care

- Clean the tool after each use to prevent residue buildup.
- Store the tool in a dry, safe place when not in use.

Disposal Instructions

- Dispose of the tool in accordance with local regulations.
- Do not dispose of the tool in regular household waste if it contains hazardous materials.
- Contact your local waste management authority for guidance on proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the use of the Sinclair Bullet Seating Depth Tool, please refer to the manufacturer's website or customer support resources for assistance.

Thank you for your attention to these safety instructions. By following these guidelines, you can ensure a safe and effective experience with your Sinclair Bullet Seating Depth Tool.
