

SINCLAIR CARBIDE VLD CASE MOUTH CHAMFERING TOOL - SINCLAIR INTERNATIONAL VLD (VERY LOW DRAG) CUTTER HANDLE ONLY

[Reloading](#) > [Case Preparation](#) > [Case Mouth Chamfering](#)

This chamfering tool features a removable 28 degree carbide cutter mounted in our large, comfortable Sinclair handle. Intended to prepare cases for VLD or boat tail bullets, but works fine for flat base bullets. Also works great on lead bullets - will not shave the base. When prepping large volumes of cases we use the power adapter in the Sinclair Power Center or with a power screwdriver. Will work on 14 caliber thru 45 caliber cases.

Safety Instruction Guide for Sinclair Carbide VLD Case Mouth Chamfering Tool

Introduction

Thank you for choosing the Sinclair Carbide VLD Case Mouth Chamfering Tool. This guide provides essential safety information and instructions for the safe use of this product. Please read this manual carefully to ensure proper handling and usage.

General Safety Guidelines

- Ensure that the tool is used in a welllit and clean workspace.
- Keep the tool out of reach of children and pets.
- Always wear appropriate personal protective equipment (PPE), including safety glasses and gloves, when using the tool.
- Inspect the tool for any damage before each use. Do not use if damaged.
- Follow all instructions carefully to minimize risks and ensure effective use.
- Report any unsafe conditions or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- Use the tool only for its intended purpose: chamfering case mouths for VLD or boat tail bullets.
- Avoid using the tool on cases that are not within the specified caliber range (14 caliber to 45 caliber).
- Do not use excessive force when operating the tool; let the tool do the work.
- Always ensure that the cutter is securely attached before use.
- When using with a power screwdriver or adapter, ensure compatibility and follow the manufacturer's instructions.
- Be cautious of sharp edges on the cutter; handle with care to avoid cuts.

Instructions for Installation and Usage

1. Installation of the Cutter:

- Remove the cutter from its packaging.
- Ensure the Sinclair handle is clean and free from debris.
- Align the cutter with the handle's attachment point and secure it tightly.

2. Preparing Cases:

- Select the appropriate caliber case for chamfering.
- Insert the case into the tool's cutter, ensuring it is held securely.
- For power use, connect the tool to the Sinclair Power Center or compatible power screwdriver.

3. Chamfering Process:

- Hold the tool firmly and apply gentle pressure to the case.
- Rotate the case against the cutter to achieve the desired chamfer.
- Inspect the chamfered edge for uniformity and quality.

4. PostUse Care:

- Clean the cutter and handle after each use to prevent buildup of debris.
- Store the tool in a dry place, away from moisture and extreme temperatures.

Disposal Instructions

- Dispose of the tool and any damaged components in accordance with local regulations.
- Avoid disposing of the tool in regular household waste; check for recycling programs in your area.

Contact Information for Further Support

For any inquiries or support regarding the Sinclair Carbide VLD Case Mouth Chamfering Tool, please refer to the contact information provided by your retailer or manufacturer.

Conclusion

By following these safety instructions and guidelines, you can ensure a safe and effective experience with the Sinclair Carbide VLD Case Mouth Chamfering Tool. Always prioritize safety and proper handling to maximize the tool's performance and longevity. Thank you for your attention to these important safety measures.
