

CHAMBER TYPE BULLET SEATER DIES - L.E. WILSON 20 VARTARG BULLET SEATING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Wilson chamber type bullet seater is a favorite among benchrest shooters. A chamber type bullet seater positively controls both bullet and cartridge case alignment. The case and bullet are completely captured by the die prior to the bullet being pushed straight into the case by a close-fitting seating stem. This style of bullet seater works more accurately than a conventional 7/8 inch to 14 bullet seating die. This is one of the most accurate bullet seaters ever made!

Safety Instruction Guide for CHAMBER TYPE BULLET SEATER DIES L.E. WILSON 20 VARTARG BULLET SEATING DIE

Introduction

Thank you for purchasing the CHAMBER TYPE BULLET SEATER DIES L.E. WILSON 20 VARTARG BULLET SEATING DIE. This product is designed for precision bullet seating, particularly favored by benchrest shooters. To ensure your safety and the proper use of this product, please read and follow the guidelines outlined in this document.

General Safety Guidelines

- Ensure safe use of the bullet seater in accordance with the EU General Product Safety Regulation (GPSR).
- Be aware of potential risks associated with reloading and handling ammunition.
- Store the bullet seater in a safe, dry place away from children and pets.
- Always use the product in a wellventilated area to avoid inhalation of any dust or particles.
- Regularly check for any signs of wear or damage to the die and associated components.

Specific Safety Precautions for Use

- Always wear appropriate safety gear, such as safety glasses and gloves, when using the bullet seater.
- Keep hands and other body parts clear of moving parts during operation.
- Do not exceed the recommended specifications for bullet and cartridge case sizes.
- Ensure that the bullet seater is securely mounted before use to prevent accidents.
- Avoid distractions while using the bullet seater to maintain focus and precision.

Instructions for Installation and Usage

1. Installation

- Ensure that your reloading press is compatible with 7/8 inch x 14 dies.
- Securely mount the bullet seater die into the reloading press.
- Adjust the die to the desired seating depth as per your specifications.

2. Usage

- Insert a cartridge case into the die, ensuring it is properly aligned.
- Place the bullet onto the case mouth.
- Use the closefitting seating stem to push the bullet into the case, ensuring straight alignment.
- After seating, check the overall cartridge length to confirm it meets your specifications.

Disposal Instructions

- Dispose of any unused or damaged bullet seating dies and components in accordance with local regulations.
- Do not dispose of ammunition or reloading components in regular trash. Follow local guidelines for hazardous waste disposal.

Contact Information for Further Support

For any inquiries regarding safety or product support, please contact your local distributor or visit the

manufacturer's website for assistance.

Conclusion

By following these safety instructions and guidelines, you can ensure the safe and effective use of the CHAMBER TYPE BULLET SEATER DIES L.E. WILSON 20 VARTARG BULLET SEATING DIE. Always prioritize safety and adhere to the best practices for reloading and ammunition handling. Thank you for choosing our product.
