Safety Instruction Guide for L.E. Wilson Micrometer Top Bullet Seater Dies 6.5x47mm Lapua

Introduction

Thank you for choosing the L.E. Wilson Micrometer Top Bullet Seater Dies for your reloading needs. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read this manual carefully before using the bullet seater dies.

General Safety Guidelines

- Always follow the manufacturer's instructions when using reloading equipment.
- Ensure that the work area is clean, welllit, and free of distractions.
- Keep all tools and components out of reach of children and pets.
- Wear appropriate safety gear, including safety glasses and gloves, when handling reloading materials.
- Store the dies in a safe place when not in use to prevent damage or injury.
- Regularly inspect the die for any signs of wear or damage before each use.

Specific Safety Precautions for Use

- **Risk of Injury:** Improper use of the bullet seater dies can lead to accidents. Always use the tool as intended.
- **Cartridge Safety:** Ensure that the cartridge is compatible with the die (6.5 x 47 mm Lapua) before use.
- **Micrometer Adjustment:** Make adjustments slowly and carefully to avoid overseating or damaging the bullet.
- **Press Safety:** Use the bullet seater with an Arbor Press only. Ensure the press is securely mounted before operation.
- **Ventilation:** Use the dies in a wellventilated area to avoid inhaling any dust or particles from reloading materials.

Instructions for Installation and Usage

1. Setup:

- Unpack the bullet seater dies and check for any visible damage.
- Ensure you have an Arbor Press ready for use.

2. Installation:

- Insert the bullet seater die into the Arbor Press according to the manufacturer's instructions.
- Secure the die tightly to prevent movement during operation.

3. Adjusting the Micrometer:

- Use the micrometer top to adjust the bulletseating depth in increments of 0.001 inches.
- Make sure to lock the adjustment in place after setting the desired depth.

4. Seating Bullets:

- Place a cartridge case in the die.
- Insert the bullet into the case mouth.

- Operate the Arbor Press to seat the bullet to the desired depth.
- Check the seating depth with a caliper to ensure accuracy.

5. Testing:

- It is recommended to test the seating depth at the range. Take your Arbor Press and die with you for adjustments if necessary.

Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not dispose of reloading materials in regular household waste.
- Contact local waste management for guidance on the safe disposal of hazardous materials.

Contact Information for Further Support

For safety inquiries or further assistance, please refer to the manufacturer's contact information provided with your product packaging.

Conclusion

By following these safety instructions, you can ensure a safe and efficient reloading experience with the L.E. Wilson Micrometer Top Bullet Seater Dies. Always prioritize safety and adhere to the guidelines provided in this manual. Thank you for your attention to these important safety measures.
