# Safety Instructions for Lyman Universal Decapping Die

## Introduction

Thank you for choosing the Lyman Universal Decapping Die. This product is designed for safely decapping primers without neck sizing prior to case cleaning. It is effective on military crimped primers and fits all calibers from 22 through 45, with the exception of 378 and 400 Weatherby. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

## General Safety Guidelines

- Always use the decapping die in accordance with the manufacturer's instructions.
- Ensure that the workspace is clean and free of any obstructions before using the die.
- Keep the decapping die out of reach of children and vulnerable individuals.
- Regularly inspect the die for wear and damage before each use.
- If you notice any irregularities or damage, discontinue use immediately and consult a qualified professional.

## Specific Safety Precautions for Use

- Wear appropriate safety glasses to protect your eyes from potential debris.
- Use the die only with the recommended shellholder. Shellholder is not included with the die.
- Do not attempt to decap live primers; this can pose significant safety risks.
- Ensure that the die is securely mounted in your reloading press before use.
- Keep hands and other body parts away from the decapping pin during operation.
- Store the decapping die in a safe location when not in use to prevent accidents.

## Instructions for Installation and Usage

### 1. Installation

- Ensure that your reloading press is clean and properly set up.
- Select the appropriate shellholder for the caliber you are working with (not included).
- Securely attach the Lyman Universal Decapping Die into the reloading press according to the press's instructions.

### 2. Usage

- Insert the brass case into the shellholder.
- Carefully lower the ram of the reloading press to engage the decapping pin with the primer.
- Apply steady pressure until the primer is fully decapped.
- Remove the decapped brass case and inspect it for any damage.
- Repeat the process for additional cases as needed.

## Disposal Instructions

- Dispose of decapped primers and any other waste materials in accordance with local regulations.
- Do not dispose of primers in regular household waste as they may pose a hazard.
- Check with local waste management authorities for proper disposal methods for hazardous materials.

## Contact Information for Further Support

For any safety inquiries or support regarding the Lyman Universal Decapping Die, please refer to the product packaging for contact details or visit the manufacturer's website.

By following these safety instructions, you can ensure a safe and effective experience with the Lyman Universal Decapping Die. Always prioritize safety and adhere to all guidelines for the best results.
