

RIFLE 'M' DIES - LYMAN 223 REM-223 WSSM RIFLE M DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Expands and flares the case mouth to help ensure consistent bullet seating during reloading. Two-step operation gives brass a longer service life because it doesn't stretch the case like a standard expander button. When used to reload cast bullets it prevents "shaving" bullet material during seating. Hardened steel, heat treated to Rc 50 and hand polished before and after to an 8 RMS finish. Shellholder not included.

Attributes

Safety Instruction Guide for RIFLE 'M' DIES LYMAN 223 REM223 WSSM RIFLE M DIE

Introduction

Thank you for choosing the RIFLE 'M' DIES LYMAN 223 REM223 WSSM RIFLE M DIE. This product is designed to safely expand and flare the case mouth, ensuring consistent bullet seating during reloading. Please read this safety instruction guide carefully to ensure safe and effective use of this product, in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Always use this product in a wellventilated area to avoid inhaling any dust or particles generated during use.
- Wear appropriate personal protective equipment (PPE), including safety glasses and gloves, to protect against potential hazards.
- Keep the product out of reach of children and vulnerable individuals to prevent misuse and accidents.
- Inspect the product before each use for any signs of damage or wear. Do not use if damaged.
- Follow all local regulations and guidelines regarding reloading and ammunition safety.

Specific Safety Precautions for Use

- Ensure that the die is securely mounted in your reloading press before use.
- Do not exceed the recommended pressure limits for your specific reloading setup.
- Avoid placing hands or fingers near the die while in operation to prevent injury.
- When using the die to reload cast bullets, ensure that the bullets are properly sized to prevent "shaving" of bullet material during seating.
- If you notice any unusual noises or resistance during operation, stop immediately and inspect the setup.

Instructions for Installation and Usage

1. Installation:

- Ensure your reloading press is turned off and unplugged before installation.
- Remove any existing dies from the press.
- Insert the RIFLE 'M' DIE into the die holder of your reloading press.
- Tighten the die securely to prevent movement during operation.

2. Usage:

- Prepare your brass cases by cleaning and inspecting them for damage.
- Insert the brass case into the shell holder of your reloading press.
- Operate the press to expand and flare the case mouth using the RIFLE 'M' DIE.
- Ensure that the case mouth is adequately flared for consistent bullet seating.
- After use, clean the die with a soft cloth to remove any debris and maintain its finish.

Disposal Instructions

- Dispose of any unused or damaged product components in accordance with local waste disposal regulations.
- Do not dispose of the product in regular household waste. Check for recycling options in your area.

Contact Information for Further Support

For any safety inquiries or additional support regarding the RIFLE 'M' DIES LYMAN 223 REM223 WSSM RIFLE M DIE, please refer to the manufacturer's contact information provided with the product packaging.

Conclusion

By following these safety instructions, you can ensure a safe and effective reloading experience with the RIFLE 'M' DIES LYMAN 223 REM223 WSSM RIFLE M DIE. Always prioritize safety and compliance with local regulations to enjoy the benefits of your reloading activities responsibly.
