

VLD BULLET SEATING MICROMETERS - REDDING #3 VLD BULLET SEATING MICROMETER

[Reloading](#) > [Measuring Tools](#) > [Micrometers](#)

Redding Competition Seating Dies deliver the precision and accuracy preferred by the most discriminating handloaders. Now you can easily convert your conventional seating die to a precision micrometer seating die for use with VLD bullets for precise, repeatable bullet seating depths to within 1/1000th of an inch and potential world-record accuracy. Designed for all seating dies that use a seat plug with ½-20 threads. Easily changes from one die to another, just match the number on your current seating plug to the corresponding bullet seating micrometer number. View Redding Micrometer Reference Chart [here](#).

VLD Bullet Seating Micrometers Safety Instruction Guide

Introduction

Thank you for choosing the VLD Bullet Seating Micrometers from Redding. This guide provides essential safety instructions to ensure the safe and effective use of this product. It is crucial to follow these guidelines to protect yourself and others while using the micrometers.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose as described in the product documentation.
- Always inspect the micrometer before use. Do not use it if it shows signs of damage or wear.
- Keep the micrometer out of reach of children and vulnerable individuals.
- Store the micrometer in a safe, dry place when not in use to prevent accidental damage or injury.
- Be aware of your surroundings and ensure that your work area is clean and free from hazards.

Specific Safety Precautions for Use

- **Handling:** Always handle the micrometer with care. Avoid dropping or applying excessive force.
- **Calibration:** Regularly check the calibration of the micrometer to ensure accurate measurements. Follow the manufacturer's instructions for calibration.
- **Use of Tools:** Use only compatible tools when adjusting or installing the micrometer. Ensure that any tools used are in good condition.
- **Personal Protective Equipment (PPE):** Wear appropriate PPE, such as safety glasses, when using the micrometer, especially in a workshop environment.
- **Avoid Distractions:** Focus on the task at hand. Avoid using the micrometer while distracted or under the influence of substances that impair judgment.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and materials before starting the installation.
- Ensure that the workspace is clean and organized.

2. Installation:

- Identify the correct seating die that corresponds with the micrometer.
- Remove the existing seat plug from the seating die.
- Match the number on your current seating plug to the corresponding bullet seating micrometer number.
- Carefully screw the micrometer into the seating die using the $\frac{1}{2}$ 20 threads. Ensure it is securely fastened.

3. Usage:

- Adjust the micrometer to the desired bullet seating depth. Turn the micrometer knob gently to achieve precise measurements.
- After adjusting, check the setting to confirm accuracy before proceeding with bullet seating.
- Use the micrometer to seat bullets according to your specific reloading requirements.

4. PostUse Care:

- After use, clean the micrometer to remove any debris or residue.
- Store the micrometer in its designated case or a safe location to prevent damage.

Disposal Instructions

- Dispose of the micrometer and any related materials in accordance with local regulations.
- Do not dispose of the micrometer in regular household waste if it contains hazardous materials.
- If in doubt, contact your local waste management authority for guidance on proper disposal methods.

Contact Information for Further Support

For any safety inquiries or further assistance, please refer to the product documentation or visit the manufacturer's website for support resources.

By following these safety instructions, you can ensure the safe and effective use of your VLD Bullet Seating Micrometers. Thank you for your attention to safety and for choosing Redding products.
