

COMPETITION LR-1000 LONG RANGE POWDER - REDDING

COMPETITION LR-1000 POWDER MEASURE

[Reloading](#) > [Powder Handling](#) > [Powder Measures & Dispensers](#)

Redding's Long Range Powder Measure features an extra-large chamber that holds plenty of powder to throw consistent charges up to 140 grains, making it ideal for loading large-capacity, long range cartridges like the 338 Lapua. Built to the same high standards of ruggedness and precision as Redding's 3BR and BR-30 powder measures, the LR-1000 has a scaled up version of BR-30's metering chamber, with hemispherical micrometer adjustable metering from 25 to 140 grains. See-through drop tube lets you make sure the powder is flowing smoothly. Fills .22 through .50 caliber cases. Operating handle can be configured for right- or left-hand operation and to drop the charge on the up- or down-stroke.

Attributes

- Name: [REDDING COMPETITION LR-1000 POWDER MEASURE](#)
- Manufacturer: [REDDING](#)
- Product no.: 749012662
- Mfr. No.: 03800

Safety Instruction Guide for Redding Competition LR1000 Long Range Powder Measure

Introduction

Thank you for choosing the Redding Competition LR1000 Long Range Powder Measure. This guide provides essential safety instructions and guidelines to ensure safe and effective use of this product. Please read this document carefully before using the powder measure to understand how to operate it safely and responsibly.

General Safety Guidelines

- Always use the powder measure in a wellventilated area to avoid inhaling any powder particles.
- Keep the powder measure out of reach of children and unauthorized users.
- Use only the recommended powders for loading. Refer to the manufacturer's guidelines for compatible powders.
- Regularly inspect the powder measure for any signs of wear or damage. Do not use if damaged.
- Avoid using the powder measure in wet or damp conditions to prevent electrical hazards.
- Ensure that the powder measure is placed on a stable and secure surface before operation.

Specific Safety Precautions for Use

- When adjusting the metering chamber, ensure that the handle is in the correct position to avoid accidental powder spillage.
- Always doublecheck the charge weight before loading cartridges to prevent overloading.
- Use the seethrough drop tube to monitor powder flow and ensure it is functioning correctly.
- Do not attempt to disassemble or modify the powder measure without proper guidance from the manufacturer.
- If you experience any issues while using the powder measure, cease operation immediately and consult the troubleshooting section of the manual or contact support.

Instructions for Installation and Usage

1. Unpacking the Product

- Carefully remove the powder measure from its packaging.
- Inspect the contents to ensure all parts are included and undamaged.

2. Setting Up the Powder Measure

- Place the powder measure on a flat, stable surface.
- Ensure the operating handle is configured for your preferred hand (right or left).
- Attach the drop tube securely to the metering chamber.

3. Adjusting the Metering Chamber

- Use the micrometer to set the desired charge weight between 25 to 140 grains.
- Confirm the adjustment by checking the scale on the micrometer.

4. Filling the Powder Measure

- Open the chamber and fill it with the appropriate powder.
- Close the chamber securely before operating the handle.

5. Operating the Powder Measure

- Pull the operating handle to drop the charge on the up or downstroke as per your setup.
- Observe the powder flow through the drop tube to ensure consistency.

6. After Use

- Empty any remaining powder from the chamber and clean the components as per the cleaning instructions in the manual.
- Store the powder measure in a safe and dry place.

Disposal Instructions

- Dispose of any unused or expired powder according to local regulations.
- Recycle packaging materials where possible.
- Do not dispose of the powder measure in regular household waste. Contact your local waste management facility for proper disposal methods.

Contact Information for Further Support

For any safety inquiries or further assistance, please refer to the manufacturer's contact details included with your product packaging. It is important to have access to support for any questions or concerns regarding the safe use of your powder measure.

By following these guidelines and instructions, you can ensure the safe and effective use of the Redding Competition LR1000 Long Range Powder Measure. Always prioritize safety and stay informed about best practices for handling and using your powder measure.
