

VLD BULLET SEATING MICROMETERS - REDDING #20 VLD BULLET SEATING MICROMETER

[Reloading](#) > [Measuring Tools](#) > [Micrometers](#)

Redding Competition Seating Dies deliver the precision and accuracy preferred by the most discriminating handloaders. Now you can easily convert your conventional seating die to a precision micrometer seating die for use with VLD bullets for precise, repeatable bullet seating depths to within 1/1000th of an inch and potential world-record accuracy. Designed for all seating dies that use a seat plug with 1/2-20 threads. Easily changes from one die to another, just match the number on your current seating plug to the corresponding bullet seating micrometer number. View Redding Micrometer Reference Chart here.

VLD Bullet Seating Micrometers Safety Instruction Guide

Introduction

Thank you for choosing the VLD Bullet Seating Micrometers by Redding. This guide provides essential safety instructions and information to ensure the safe and effective use of your product. Please read this guide carefully before using the micrometers to ensure a safe experience.

General Safety Guidelines

- Ensure that you are familiar with the operation of your reloading equipment before using the VLD Bullet Seating Micrometers.
- Always handle reloading components, including bullets and dies, with care to avoid accidents.
- Keep the micrometers out of reach of children and unauthorized individuals.
- Regularly inspect your micrometers for any signs of wear or damage. Do not use damaged equipment.
- Follow local laws and regulations regarding the use and storage of reloading equipment.

Specific Safety Precautions for Use

- Use the micrometers only with compatible seating dies that have a seat plug with $\frac{1}{2}20$ threads.
- Ensure that the micrometers are properly secured before adjusting the seating depth.
- Avoid overtightening the micrometers, as this may lead to damage or inaccurate measurements.
- Do not attempt to modify or disassemble the micrometers, as this may compromise their safety and functionality.
- Wear appropriate personal protective equipment (PPE), such as safety glasses, when using reloading equipment.

Instructions for Installation and Usage

1. Installation:

- Ensure that your seating die is clean and free of debris.
- Remove the existing seating plug from the die.
- Align the micrometer with the threads of the die and gently screw it into place until secure.
- Match the number on your current seating plug to the corresponding bullet seating micrometer number to ensure compatibility.

2. Usage:

- Set the desired bullet seating depth on the micrometer by turning the adjustment knob.
- Insert the bullet into the die and gently lower the ram to seat the bullet.
- Check the seating depth using the micrometer's scale to confirm accuracy.
- Repeat the process for additional rounds, adjusting the seating depth as necessary.

Disposal Instructions

- Dispose of any used or damaged micrometers in accordance with local regulations.
- If the micrometers are no longer usable, consider recycling materials where applicable.
- Do not dispose of the micrometers in regular household waste.

Contact Information for Further Support

For any safety inquiries or concerns regarding the VLD Bullet Seating Micrometers, please refer to the manufacturer's contact details provided with your product packaging. It is important to have a reliable source for assistance and information.

Conclusion

By following these safety instructions, you can ensure a safe and effective experience with your VLD Bullet Seating Micrometers. Always prioritize safety and stay informed about best practices in reloading. Thank you for choosing Redding products.
