

STANDARD BULLET SEATING MICROMETERS - REDDING #3

STANDARD BULLET SEATING MICROMETER

[Reloading](#) > [Reloading Dies](#) > [Replacement Parts & Upgrades](#)

Redding Competition Seating Dies deliver the precision and accuracy preferred by the most discriminating handloaders. Now you can easily convert your conventional seating die to a precision micrometer seating die for use with STD (standard) bullets for precise, repeatable bullet seating depths to within 1/1000th of an inch and potential world-record accuracy. Designed for all seating dies that use a seat plug with ½-20 threads. Easily changes from one die to another, just match the number on your current seating plug to the corresponding bullet seating micrometer number. View Redding Micrometer Reference Chart [here](#).

Safety Instruction Guide for Redding Standard Bullet Seating Micrometers

Introduction

Thank you for choosing the Redding Standard Bullet Seating Micrometers. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of this product. Please read and follow all instructions carefully to maximize your safety and the performance of the micrometer.

General Safety Guidelines

- Ensure that the micrometer is used only for its intended purpose as outlined in the product description.
- Always handle the micrometer with care to avoid injury or damage to the product.
- Keep the micrometer out of reach of children and unauthorized users.
- Regularly inspect the micrometer for any signs of wear or damage before use.
- Use appropriate protective equipment, such as safety glasses, when using the micrometer in conjunction with other reloading equipment.

Specific Safety Precautions for Use

- Before using the micrometer, ensure that your workspace is clean and organized to prevent accidents.
- Do not exceed the recommended bullet seating depths to avoid potential safety hazards.
- Always follow the manufacturer's instructions when changing or adjusting the seating plug.
- Be aware of the materials you are working with, including the type of bullets and cartridges, to ensure compatibility with the micrometer.
- If you experience any difficulty or malfunction while using the micrometer, stop use immediately and consult the troubleshooting section or contact customer support.

Instructions for Installation and Usage

Installation

1. **Select the Appropriate Seating Plug:** Identify the seating plug that corresponds to your current setup by matching the number on your existing plug with the micrometer number.
2. **Attach the Micrometer:** Securely attach the micrometer to your seating die, ensuring that it is properly aligned and tightened to prevent movement during use.
3. **Check for Proper Fit:** Confirm that the micrometer is fitted correctly and that there are no gaps between the micrometer and the seating die.

Usage

1. **Adjusting the Micrometer:**
 - Turn the micrometer dial to set the desired bullet seating depth.
 - Ensure that the measurement is accurate by checking against a reference chart if necessary.
2. **Seating the Bullet:**
 - Place the cartridge in the die and gently lower the seating stem to make contact with the bullet.
 - Apply consistent pressure to seat the bullet to the desired depth.
3. **Verification:**
 - After seating, measure the bullet depth using a caliper to ensure it meets your specifications.

- Make any necessary adjustments and repeat the seating process if needed.

Disposal Instructions

- Dispose of any packaging materials and used components in accordance with local regulations.
- Do not dispose of the micrometer or any associated parts in general waste. Check with local recycling programs for proper disposal methods.
- Ensure that all materials are disposed of safely to prevent environmental harm.

Contact Information for Further Support

For any questions or concerns regarding the Redding Standard Bullet Seating Micrometers, please refer to the manufacturer's website or customer support for assistance.

By following these safety instructions and guidelines, you can ensure a safe and effective experience with your Redding Standard Bullet Seating Micrometers. Thank you for your attention to safety, and happy reloading!
