

# HAND HELD OUTSIDE NECK TURNER PILOTS - FORSTER PRODUCTS, INC. #483 NECK TURNER PILOT FOR 0.483" BULLETS

[Reloading](#) > [Case Preparation](#) > [Neck Turning](#) > [Turning & Expander Mandrels](#)

Forster's easy-to-use hand-held neck turning tool helps you take the next step toward cartridge-to-cartridge consistency. It features a carbide cutter with a micrometer-style adjustment knob for precise material removal to give cases consistent wall thickness that improves bullet-to-bore alignment. The aluminum holder retains the case firmly with a simple turn of the knob; holds up to .592" base diameter. Large case holder available for cases from .593" to .812" base diameter. Requires a pilot that's specific to the case mouth diameter; sold separately, see table below. Pilots are precision-ground .002" to .0025" smaller than the bullet diameter.

# Safety Instruction Guide for HAND HELD OUTSIDE NECK TURNER PILOTS

## Introduction

Thank you for choosing the HAND HELD OUTSIDE NECK TURNER PILOTS by Forster Products, Inc. This tool is designed to enhance your cartridge reloading process by providing consistent neck turning results. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

## General Safety Guidelines

- Always read and understand the user manual before operating the neck turner.
- Keep the tool out of reach of children and vulnerable individuals.
- Inspect the tool before each use to ensure it is in good working condition.
- Do not use the neck turner for any purpose other than its intended use.
- Report any unsafe products or accidents to the appropriate authorities.
- Regularly check for recall updates on the EU Safety Gate platform.

## Specific Safety Precautions for Use

- Ensure that the cutting tool is securely attached before use to prevent accidents.
- Avoid wearing loose clothing or jewelry that may get caught in the tool during operation.
- Use protective eyewear to shield your eyes from debris or particles that may be ejected during use.
- Always operate the tool in a welllit area to maintain visibility and control.
- Do not exceed the recommended base diameter limits for the tool.
- Handle the carbide cutter with care to prevent cuts or injuries.

## Instructions for Installation and Usage

### 1. Preparation:

- Select the appropriate pilot that matches the case mouth diameter. Pilots are sold separately.
- Ensure that the case holder is clean and free from obstructions.

### 2. Installation:

- Insert the case into the aluminum holder.
- Turn the knob clockwise to secure the case firmly in place.
- Attach the selected pilot to the tool, ensuring it is properly aligned.

### 3. Usage:

- Adjust the micrometerstyle knob to set the desired material removal depth.
- Hold the tool with both hands for better stability and control.
- Begin the neck turning process by gently rotating the tool while applying consistent pressure.
- After completing the neck turning, release the knob to remove the case safely.

### 4. PostUsage:

- Clean the tool and store it in a dry, safe place away from children.
- Regularly inspect the carbide cutter for wear and replace it as necessary.

## **Disposal Instructions**

- Dispose of any worn or damaged parts in accordance with local regulations.
- Do not dispose of the neck turner or its components in household waste.
- Consider recycling options for metal components where applicable.

## **Contact Information for Further Support**

For inquiries regarding safety or product support, please reach out to your local Forster Products representative or visit the official website for additional resources.

By following these safety instructions, you can ensure a safe and effective experience with your HAND HELD OUTSIDE NECK TURNER PILOTS. Thank you for your attention to safety!
