

# DEBURRING TOOLS - LYMAN DEBURRING TOOL

[Reloading](#) > [Case Preparation](#) > [Case Mouth Chamfering](#)

Lyman's handy tool cuts a chamfer on the inside and the outside of the case neck to deburr the case after trimming and provide a gentle transition at the mouth to help start the bullet for seating. The tool is made of hardened steel for years of trouble-free service. The standard tool fits .17 through .45 calibers, while the extra-large tool is designed to handle any case all the way up to .60 caliber.

# Lyman Deburring Tool Safety Instruction Guide

## Introduction

Thank you for choosing the Lyman Deburring Tool. This handy tool is designed to cut a chamfer on the inside and outside of the case neck, helping to deburr the case after trimming. It ensures a gentle transition at the mouth to assist in starting the bullet for seating. To ensure safe and effective use of this product, please read and follow the safety guidelines outlined in this document.

## General Safety Guidelines

- Always use the tool as intended and according to the instructions provided.
- Keep the tool out of reach of children and vulnerable individuals.
- Inspect the tool before each use for any signs of damage or wear.
- Do not modify the tool in any way that could compromise its safety.
- Store the tool in a safe and dry place when not in use.
- Report any unsafe conditions or accidents to the appropriate authorities.

## Specific Safety Precautions for Use

- Wear safety glasses to protect your eyes from metal shavings and debris.
- Use gloves to protect your hands from sharp edges.
- Ensure the work area is clean and free from clutter to prevent accidents.
- Always deburr cases in a welllit area to maintain visibility and control.
- Do not operate the tool if you are tired or under the influence of substances that could impair your judgment.

## Instructions for Installation and Usage

### Installation

1. **Select the appropriate tool:** Choose either the standard tool for .17 through .45 calibers or the extralarge tool for cases up to .60 caliber.
2. **Secure the tool:** Ensure the tool is secured in your hand or on a stable work surface before use.

### Usage

1. **Prepare the case:** Ensure that the case is clean and free from debris.
2. **Position the case:** Insert the case neck into the tool, ensuring it is properly aligned.
3. **Apply gentle pressure:** Rotate the tool to cut the chamfer on the inside and outside of the case neck.
4. **Inspect the case:** After deburring, check the case for any remaining burrs or imperfections.
5. **Store the tool:** After use, clean the tool if necessary and store it in a safe location.

## Disposal Instructions

- Dispose of the tool in accordance with local regulations regarding metal waste.
- Do not throw the tool in regular household waste; check for recycling options in your area.

## Contact Information for Further Support

For further support or inquiries regarding the Lyman Deburring Tool, please refer to the manufacturer's contact details provided with the product packaging.

Thank you for adhering to these safety guidelines and for your commitment to safe usage of the Lyman

Deburring Tool.
