

# ULTRA™ MICROMETER SEATER DIES - FORSTER PRODUCTS, INC.

## 7X64MM MICROMETER SEATER DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Forster Reloading Dies are of excellent quality and provide the reloader with the ability to produce concentric rounds time and time again. Each die is manufactured from the finest quality steel carefully machined to very tight tolerances. Dies are hand polished both before and after the heat-treating process to guarantee an extra fine finish. All Forster reloading dies feature their Forster Cross Bolt Die Locking Ring that tightens the two ends of the split ring instead of tightening a screw directly into the threads of the die. The Forster Ultra Seater includes all of the features of the Forster Bench Rest Seater Die above, plus an ultra accurate micrometer adjustment. This micrometer adjustment allows you to adjust bullet seating depth from .0005 inch to .001 inch increments, and makes switching bullets easy - just dial back to your previous recorded setting. Forster Ultra Seaters make fine tuning your bullets to the lands of your rifling simple.

### Attributes

- Name: [FORSTER PRODUCTS, INC. 7X64MM MICROMETER SEATER DIE](#)
- Manufacturer: [FORSTER PRODUCTS, INC.](#)
- Product no.: 749012946
- Mfr. No.: U00073
- Cartridge: 7 x 64 mm Brenneke
- Diameter (in): -
- Die Style: Bullet Seating Dies
- Delivery weight: 0.499kg
- Shipping height: 56mm
- Shipping width: 130mm
- Shipping length: 216mm

# ULTRA™ MICROMETER SEATER DIES FORSTER PRODUCTS, INC. Safety Instructions

## Introduction

Thank you for choosing the ULTRA™ MICROMETER SEATER DIES from Forster Products, Inc. These reloading dies are designed to provide you with precision and reliability in producing highquality ammunition. This safety instruction guide is intended to ensure safe usage and compliance with the EU General Product Safety Regulation (GPSR). Please read this guide carefully before using the product.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose, which is to reload ammunition.
- Always keep the dies out of reach of children and vulnerable individuals.
- Inspect the dies regularly for signs of wear or damage before each use.
- Use personal protective equipment (PPE), such as safety glasses and gloves, when handling reloading components.
- Follow all local laws and regulations regarding reloading and ammunition storage.

## Specific Safety Precautions for Use

- Always work in a wellventilated area to avoid inhaling any dust or fumes generated during the reloading process.
- Never exceed the recommended load specifications for the cartridges you are reloading.
- Ensure that the micrometer adjustment is securely tightened before use to prevent accidental changes in bullet seating depth.
- Do not force the die or components if they do not fit or operate smoothly; check for obstructions or misalignments.
- Store the dies in a cool, dry place when not in use to prevent rust and damage.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure the reloading press is securely mounted on a sturdy workbench.
- Select the appropriate die for the cartridge you are reloading (7 x 64 mm Brenneke).
- Insert the ULTRA™ MICROMETER SEATER DIE into the reloading press according to the manufacturer's instructions.
- Tighten the die in place using the Forster Cross Bolt Die Locking Ring to secure it without damaging the threads.

### 2. Usage:

- Set the desired bullet seating depth using the micrometer adjustment, ranging from .0005 inch to .001 inch increments.
- Place a cartridge case in the press and ensure it is properly aligned with the die.
- Insert the bullet into the case mouth and lower the ram to seat the bullet to the set depth.
- Check the seating depth with a caliper to ensure it meets your specifications.
- Repeat the process for each cartridge, adjusting the micrometer as needed for different bullet types.

## **Disposal Instructions**

- Dispose of any unused or damaged reloading components in accordance with local regulations.
- Do not dispose of reloading dies in regular household waste.
- Contact your local waste management facility for guidance on proper disposal methods for metal and hazardous materials.

## **Contact Information for Further Support**

For any safety inquiries or assistance regarding the ULTRA™ MICROMETER SEATER DIES, please refer to the manufacturer's contact details included with your product packaging or visit the Forster Products, Inc. website.

## **Conclusion**

By following these safety instructions, you can ensure a safe and effective reloading experience with the ULTRA™ MICROMETER SEATER DIES. Always prioritize safety and remain informed about the best practices for reloading ammunition. Thank you for choosing Forster Products, Inc.
