

ULTRA™ MICROMETER SEATER DIES - FORSTER PRODUCTS, INC.

284 WINCHESTER MICROMETER SEATER DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Forster Reloading Dies are of excellent quality and provide the reloader with the ability to produce concentric rounds time and time again. Each die is manufactured from the finest quality steel carefully machined to very tight tolerances. Dies are hand polished both before and after the heat-treating process to guarantee an extra fine finish. All Forster reloading dies feature their Forster Cross Bolt Die Locking Ring that tightens the two ends of the split ring instead of tightening a screw directly into the threads of the die. The Forster Ultra Seater includes all of the features of the Forster Bench Rest Seater Die above, plus an ultra accurate micrometer adjustment. This micrometer adjustment allows you to adjust bullet seating depth from .0005 inch to .001 inch increments, and makes switching bullets easy - just dial back to your previous recorded setting. Forster Ultra Seaters make fine tuning your bullets to the lands of your rifling simple.

Attributes

- Name: [FORSTER PRODUCTS, INC. 284 WINCHESTER MICROMETER SEATER DIE](#)

ULTRA™ MICROMETER SEATER DIES FORSTER PRODUCTS, INC. Safety Instruction Guide

Introduction

Thank you for choosing the ULTRA™ MICROMETER SEATER DIES by Forster Products, Inc. This guide provides important safety instructions and information on the proper use of your reloading die. It is essential to follow these guidelines to ensure safe operation and optimal performance.

General Safety Guidelines

- Always read and understand the safety instructions before using the product.
- Ensure that the reloading area is wellventilated and free from distractions.
- Keep the product out of reach of children and unauthorized users.
- Wear appropriate safety gear, including eye protection and gloves, when using the die.
- Regularly inspect the die for damage or wear before use.
- Report any unsafe conditions or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Only use the ULTRA™ MICROMETER SEATER DIES with compatible cartridges. Incompatible use may lead to malfunctions or injuries.
- Do not exceed the recommended bullet seating depth adjustments. Adjustments should only be made in increments as specified.
- Ensure that the die is securely mounted in the reloading press before use.
- Keep hands and other body parts clear of moving parts during operation.
- Avoid using excessive force when seating bullets to prevent damaging the die or causing injury.
- Store the die in a safe, dry place when not in use to prevent corrosion or damage.

Instructions for Installation and Usage

1. Installation:

- Ensure that your reloading press is clean and free of debris.
- Securely mount the ULTRA™ MICROMETER SEATER DIE into the press according to the manufacturer's instructions.
- Adjust the Forster Cross Bolt Die Locking Ring to ensure a tight fit without overtightening.

2. Usage:

- Set the desired bullet seating depth using the micrometer adjustment feature.
- Insert a cartridge case into the press and position the bullet on top of the case.
- Slowly lower the die onto the bullet, applying consistent pressure until the bullet is seated to the desired depth.
- Check the seating depth using a caliper to ensure accuracy.
- If necessary, adjust the seating depth incrementally and repeat the process until the desired depth is achieved.

Disposal Instructions

- Dispose of any damaged or worn components of the ULTRA™ MICROMETER SEATER DIES in accordance with local regulations.
- Do not dispose of the product in regular household waste. Instead, check with local authorities for proper disposal.

disposal methods for metal products.

Contact Information for Further Support

For any inquiries regarding safety or product support, please consult the product packaging or visit the official website of Forster Products, Inc. for further assistance.

By following these safety instructions, you can ensure a safe and effective reloading experience with the ULTRA™ MICROMETER SEATER DIES. Thank you for prioritizing safety and quality in your reloading practices.
