

FULL LENGTH SIZING AND BENCH REST SEATER DIE SETS - FORSTER PRODUCTS, INC. 8X68S FULL LENGTH DIE SET

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Forster Bench Rest Reloading Dies are of excellent quality and provide the reloader with the ability to produce concentric rounds time and time again. Each die is manufactured from the finest quality steel carefully machined to very tight tolerances. Dies are hand polished both before and after the heat-treating process to guarantee an extra fine finish. All Forster reloading dies feature their Forster Cross Bolt Die Locking Ring that tightens the two ends of the split ring instead of tightening a screw directly into the threads of the die. A full length two die set is the die set beginning reloaders should start with, and the die set most hunters and many target shooters use every time they reload their cases. These Forster full length die sets include a full length sizing die and the Forster Bench Rest seater die. Forster full length sizers feature hand polishing and the E-Z case neck expander system - a Forster exclusive. NATIONAL MATCH DIES reduce headspace by .003" and are intended for bolt action target rifles only.

Attributes

- Name: [FORSTER PRODUCTS, INC. 8X68S FULL LENGTH DIE SET](#)
- Manufacturer: [FORSTER PRODUCTS, INC.](#)

Safety Instruction Guide for Forster Full Length Sizing and Bench Rest Seater Die Sets

Introduction

Thank you for choosing the Forster Full Length Sizing and Bench Rest Seater Die Sets. This guide provides important safety information and instructions to ensure the safe and effective use of your reloading dies. Please read this guide carefully before using the product.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always follow the manufacturer's instructions for use and maintenance.
- Store the dies in a safe, dry place away from children and unauthorized users.
- Use personal protective equipment (PPE) such as safety glasses and gloves when handling reloading materials.
- Be aware of your surroundings and ensure that no one is in close proximity while reloading.
- Regularly inspect the dies for wear or damage before each use.
- If you experience any issues or notice any abnormalities during use, stop immediately and consult a professional.

Specific Safety Precautions for Use

- Ensure that the die set is compatible with the specific cartridge you are using (8 x 68 S).
- Only use approved and recommended components when reloading ammunition.
- Do not exceed recommended load specifications as outlined in reputable reloading manuals.
- Keep reloading areas clean and organized to prevent accidents.
- Avoid distractions while reloading to maintain focus.
- Be mindful of any potential hazards associated with the materials you are working with, such as lead exposure.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and materials before starting.
- Ensure your work area is clean and welllit.

2. Installing the Dies:

- Securely attach the sizing die to your reloading press according to the manufacturer's instructions.
- Adjust the die to achieve the desired sizing depth.
- Install the Bench Rest seater die in the same manner, ensuring it is properly aligned.

3. Reloading Process:

- Begin by resizing the cases using the sizing die. Follow the specific instructions for your press.
- After sizing, use the EZ case neck expander system to prepare the case necks for bullet seating.
- Load the appropriate powder charge into each case, adhering to recommended guidelines.
- Seat the bullets using the Bench Rest seater die, ensuring proper alignment for concentric rounds.

4. PostReloading:

- Inspect all reloaded ammunition for consistency and quality.
- Store completed ammunition in a safe and secure location.

Disposal Instructions

- Dispose of any unused or damaged components according to local regulations.
- Do not dispose of hazardous materials in regular trash; consult local waste management for appropriate disposal methods.

Contact Information for Further Support

For additional support, please refer to the manufacturer's website or contact the customer service department of Forster Products, Inc. for assistance with any safety inquiries or productrelated questions.

Conclusion

By following these safety guidelines and instructions, you can ensure a safe and effective reloading experience with your Forster Full Length Sizing and Bench Rest Seater Die Sets. Always prioritize safety and compliance with the EU General Product Safety Regulation. Thank you for your attention to these important guidelines.
