

# CASE NECK DIPPER - LYMAN REPLACEMENT MICA REFILL (1 OZ.)

[Reloading](#) > [Case Preparation](#) > [Case Lube](#)

Case Neck Dipper Kit uses a mica-based dry lubricant that helps alleviate expander ball drag to prevent case neck stretching and loss of material sizing. Simply clean the inside of the mouth with one of the included brushes that fit into the base of the dipper, then dip the case mouth into the lubricant – and it's ready for neck sizing. Kit contains plastic case with brush holders and lubricant reservoir, 3.1grams of Motor Mica dry lubricant, and 3 brushes (sizes for .22 to .27, .35 to .40, and .44/.45 caliber).

# Safety Instruction Guide for CASE NECK DIPPER LYMAN REPLACEMENT MICA REFILL (1 OZ.)

## Introduction

Thank you for choosing the CASE NECK DIPPER LYMAN REPLACEMENT MICA REFILL. This product is designed to assist in the reloading process by providing a micabased dry lubricant, which helps reduce expander ball drag and prevent case neck stretching. To ensure safe and effective use of this product, please read the following safety instructions carefully.

## General Safety Guidelines

- Always use the product in a wellventilated area to avoid inhaling any dust particles.
- Keep the product out of reach of children and pets to prevent accidental ingestion or misuse.
- Avoid contact with eyes and skin. If contact occurs, rinse thoroughly with water.
- Do not ingest the lubricant. It is not intended for consumption.
- In case of accidental ingestion or if you experience any adverse reactions, seek medical attention immediately.
- Regularly check for any updates regarding product recalls on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Ensure that the workspace is clean and free from clutter before using the dipper kit.
- Use only the brushes provided with the kit to avoid damage to the dipper or the cases.
- Do not use the lubricant on any foodrelated items or surfaces.
- Do not mix the mica lubricant with any other substances or chemicals.
- Always store the lubricant in its original container, tightly closed, and in a cool, dry place.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary items: the dipper, the brushes, and the mica lubricant.
- Ensure your workspace is clean and welllit.

### 2. Cleaning the Case Mouth:

- Select one of the included brushes that fits into the base of the dipper.
- Using the brush, clean the inside of the case mouth thoroughly to remove any debris.

### 3. Applying the Lubricant:

- Dip the cleaned case mouth into the micabased lubricant.
- Ensure the lubricant covers the inner surface of the case mouth evenly.

### 4. Neck Sizing:

- After applying the lubricant, proceed with the neck sizing process as per your reloading setup.
- Always check the case for proper lubrication before sizing to prevent damage.

### 5. PostUse Cleaning:

- Clean the brushes after each use to maintain their effectiveness.
- Store the dipper and brushes in the plastic case provided to avoid loss or damage.

## **Disposal Instructions**

- Dispose of any unused lubricant and empty containers in accordance with local regulations.
- Do not pour the lubricant down the drain or dispose of it in regular trash.
- Check with local waste management authorities for specific disposal instructions related to micabased products.

## **Contact Information for Further Support**

For any inquiries regarding the safety and usage of this product, please consult the manufacturer's website or contact your local distributor.

Thank you for your attention to these safety guidelines. Enjoy using your CASE NECK DIPPER LYMAN REPLACEMENT MICA REFILL responsibly and safely.
