

# CASE LUBE KIT - LYMAN LUBE PAD ONLY

[Reloading](#) > [Case Preparation](#) > [Case Lube](#)

Lyman, a long-trusted name in reloading, offers two different systems to make case and case neck lubrication easy and fast. Case Lube Kit contains everything you need to clean up the case mouths and lubricate the cases in preparation for reloading. Includes a big, 7½" x 4½" lubrication pad, 2 fl. oz. of Lyman Case Lube, and a cushioned, ergonomic polymer handle that accepts the three interchangeable neck brushes for .22 to .27, .35 to .40, and .44/.45 caliber cases. Lube pad and Case Lube refills also available separately.

# Safety Instructions for Lyman Case Lube Kit

## Introduction

Thank you for choosing the Lyman Case Lube Kit. This guide provides essential safety information to ensure the safe use of the product. Please read this manual carefully before using the kit, and keep it for future reference.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose, which is to lubricate cases for reloading.
- Keep the product out of reach of children and vulnerable individuals.
- Always wear appropriate protective equipment, such as gloves, when handling lubricants.
- Store the product in a cool, dry place away from direct sunlight and heat sources.
- If any part of the product appears damaged or defective, discontinue use immediately and contact customer support.

## Specific Safety Precautions for Use

- Use the Lyman Case Lube only as directed. Avoid excessive application to prevent contamination of the reloading process.
- Do not ingest any part of the product, including the lubricant. If ingested, seek medical attention immediately.
- Avoid contact with eyes. In case of contact, rinse thoroughly with water and seek medical advice if irritation persists.
- Ensure proper ventilation when using the lubricant to avoid inhalation of fumes.
- Clean any spills immediately to prevent slipping hazards.

## Instructions for Installation and Usage

### 1. Preparing the Work Area

- Choose a clean, flat surface for your work area.
- Ensure that the area is wellventilated.

### 2. Using the Lube Pad

- Place the lubrication pad on your work surface.
- Apply a small amount of Lyman Case Lube onto the pad.
- Roll the cases on the pad to evenly coat them with lubricant.

### 3. Interchangeable Neck Brushes

- Select the appropriate neck brush for your case caliber (.22 to .27, .35 to .40, or .44/.45).
- Attach the brush to the ergonomic handle.
- Insert the brush into the case neck and rotate gently to apply lubricant.

### 4. Cleaning Up

- After use, clean the lubrication pad and brushes with a suitable cleaning solution.
- Store the product components in a safe place.

## Disposal Instructions

- Dispose of any leftover lubricant according to local regulations.

- Recycle packaging materials where possible.
- Do not dispose of the product in household waste.

## **Contact Information for Further Support**

For any questions or concerns regarding the Lyman Case Lube Kit, please refer to the manufacturer's contact details provided on the packaging or visit their official website.

Thank you for following these safety instructions. Your cooperation ensures a safe and effective reloading experience.
