

MEC 600 SLUGGER SINGLE STAGE SHOTSHELL PRESS - MEC RELOADING 600 SLUGGER SINGLE STAGE SHOTSHELL PRESS 20GA 2-3/4", 3"

[Reloading](#) > [Reloading Presses](#) > [Shotshell Presses](#)

The MEC 600 Slugger is the most efficient way to reload rifled or sabot slugs on the market today. The machine is self-inclusive so no need for a vice, drill press, hand drill, or spinners. The MEC 600 Slugger is based off of our number one selling shotshell reloader in the world the MEC 600 Jr Mark V. Seasoned gunners will like the features provided by the MEC 600 Slugger. The MEC 600 Slugger folds the plastic into the shell to look like a roll crimp when the shell is finished with the use of MEC's special dies. This single stage loader provides a quick and simple way to reload your hunting and home defense rounds with the ease of pulling a handle. The 600 Slugger can load between 100 to 125 rounds per hour depending on your recipe. The MEC 600 Slugger is available in 12 and 20 gauges only and the press is adjustable for 3" shells.

MEC 600 Slugger Single Stage Shotshell Press Safety Instructions

Introduction

Thank you for choosing the MEC 600 Slugger Single Stage Shotshell Press. This guide provides essential safety instructions to ensure the safe and effective use of your reloading press. Please read this manual carefully before using the product.

General Safety Guidelines

- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when operating the press.
- Ensure that the workspace is clean, dry, and welllit to prevent accidents.
- Keep the press out of reach of children and unauthorized users.
- Do not modify the press or use it for unintended purposes.
- Always follow the manufacturer's instructions for reloading materials and procedures.
- Regularly inspect the press for any signs of wear or damage before use.
- Be aware of your surroundings and ensure that no one is in close proximity while reloading.

Specific Safety Precautions for Use

- **Hazard Identification:** The MEC 600 Slugger may pose risks such as:
 - Injury from moving parts
 - Burns from hot components
 - Exposure to lead and other hazardous materials
- **Avoiding Hazards:**
 - Keep hands and clothing away from moving parts during operation.
 - Allow the press to cool down after use before handling.
 - Use appropriate ventilation when working with materials that may produce fumes or dust.
 - Wash hands thoroughly after handling reloading materials to avoid lead exposure.
- **Age Warning:** This product is intended for use by individuals aged 18 and older. Do not allow minors to operate the press without adult supervision.

Instructions for Installation and Usage

1. Installation:

- Place the MEC 600 Slugger on a stable, flat surface.
- Ensure that the press is securely mounted to prevent movement during operation.
- Follow the manufacturer's guide to attach any necessary components.

2. Usage:

- Load the appropriate components (hulls, primers, powder, and wads) according to the reloading recipe you are following.
- Pull the handle smoothly to operate the press, ensuring that your hands remain clear of moving parts.
- Monitor the output to ensure consistent quality and safety.
- After reloading, carefully remove completed shells and store them in a safe location.

Disposal Instructions

- Dispose of any unused or expired reloading materials in accordance with local regulations.
- Recycle packaging materials when possible.
- Do not dispose of hazardous materials in regular trash. Follow local guidelines for hazardous waste disposal.

Contact Information for Further Support

For any questions or concerns regarding the MEC 600 Slugger, please refer to the manufacturer's website or contact their customer support. Ensure that you have your product information available for reference.

Conclusion

By following these safety instructions, you can ensure a safe and effective reloading experience with your MEC 600 Slugger Single Stage Shotshell Press. Always prioritize safety and refer back to this guide as needed. Thank you for your commitment to safe reloading practices.
