

MEC 600 SLUGGER SINGLE STAGE SHOTSHELL PRESS - MEC RELOADING 600 SLUGGER SHORT KIT 12GA 3" TO 2-3/4"

[Reloading](#) > [Reloading Presses](#) > [Shotshell Presses](#)

The MEC 600 Slugger is the most efficient way to reload rifled or sabot slugs on the market today. The machine is self-inclusive so no need for a vice, drill press, hand drill, or spinners. The MEC 600 Slugger is based off of our number one selling shotshell reloader in the world the MEC 600 Jr Mark V. Seasoned gunners will like the features provided by the MEC 600 Slugger. The MEC 600 Slugger folds the plastic into the shell to look like a roll crimp when the shell is finished with the use of MEC's special dies. This single stage loader provides a quick and simple way to reload your hunting and home defense rounds with the ease of pulling a handle. The 600 Slugger can load between 100 to 125 rounds per hour depending on your recipe. The MEC 600 Slugger is available in 12 and 20 gauges only and the press is adjustable for 3" shells.

MEC 600 Slugger Shotshell Press Safety Instructions

Introduction

Thank you for choosing the MEC 600 Slugger Single Stage Shotshell Press. This guide provides essential safety instructions and guidelines for the proper use of your reloading press to ensure safe and effective operation. Please read this manual thoroughly before using the product.

General Safety Guidelines

- Always read and understand the product manual before use.
- Use the MEC 600 Slugger only for its intended purpose, which is reloading rifled or sabot slugs.
- Keep the work area clean and organized to prevent accidents.
- Ensure that children and pets are kept away from the work area during operation.
- Wear appropriate safety gear, including safety glasses and gloves, to protect against any potential hazards.
- Never leave the press unattended while in use.
- Regularly inspect the press for any signs of wear or damage before each use.
- Follow all local laws and regulations regarding ammunition reloading.

Specific Safety Precautions for Use

- Handle all components of the reloading process with care to avoid injury.
- Ensure that the press is securely mounted to a stable surface before use.
- Do not use the press if you are tired, under the influence of drugs or alcohol, or if you are feeling unwell.
- Avoid wearing loose clothing or jewelry that could become entangled in the press.
- Always keep your hands and other body parts clear of moving parts during operation.
- Use only MEC approved components and materials to ensure safety and compatibility.
- Be aware of the potential hazards associated with gunpowder and primers. Store these materials safely and away from heat sources.

Instructions for Installation and Usage

Installation

1. Choose a stable and sturdy surface to mount the MEC 600 Slugger.
2. Securely attach the press to the surface using appropriate fasteners.
3. Ensure that the press is level and stable before proceeding.

Usage

1. Gather all necessary components for reloading, including hulls, wads, powder, and slugs.
2. Set up the press according to the manufacturer's instructions.
3. Follow these steps for reloading:
 - Insert the hull into the shell holder.
 - Use the handle to perform the necessary operations, such as resizing, priming, and charging.
 - Follow the specific instructions for the use of MEC's special dies for crimping.
 - Monitor the process closely to ensure everything is functioning correctly.
4. Once the reloading is complete, inspect each round to ensure it meets safety standards.
5. Store completed ammunition in a safe and secure manner.

Disposal Instructions

- Dispose of any unused or expired components in accordance with local regulations.
- Ensure that all hazardous materials, including gunpowder and primers, are disposed of safely.
- Recycle any nonhazardous materials where possible.

Contact Information for Further Support

For any safety inquiries or product support, please refer to the manufacturer's website or customer service resources. Ensure that you have the product information ready when contacting support.

By following these safety instructions and guidelines, you can ensure a safe and efficient reloading experience with the MEC 600 Slugger Shotshell Press. Always prioritize safety and compliance with the EU General Product Safety Regulation (GPSR) when using this product.
