

# Sinclair Speed Screw - SINCLAIR INTERNATIONAL SHOOTING REST SPEED SCREW, 1/2"X20 THREADS

[Shooting Accessories](#) > [Shooting Rests](#) > [Shooting Rest Accessories](#)

The Speed Screw replaces the rear leg in the Sinclair Rifle Rest. It is used for high speed vertical travel between the record target and the sighter target, and for quick fine-tune vertical adjustments. All stainless steel construction and quality machining make this product work flawlessly. NOTE: 3/8"-16 thread Speed Screw works with Gen II Sinclair rests, Hart, Bald Eagle and others with 3/8"-16 leg threads. 1/2"-20 thread Speed Screw works for the new Sinclair Heavy Varmint Rests and Sinclair Competition Rests.

# Sinclair Speed Screw Safety Instruction Guide

## Introduction

Thank you for choosing the Sinclair Speed Screw. This product is designed to enhance your shooting experience by providing precise vertical adjustments for your Sinclair Rifle Rest. To ensure your safety and the proper functioning of the Speed Screw, please read this guide carefully before use.

## General Safety Guidelines

- **Product Safety:** Always use the Speed Screw as intended. Ensure that it is compatible with your specific Sinclair Rifle Rest model.
- **Enhanced Recalls:** Stay informed about any recalls related to the Speed Screw. Follow instructions provided in recall notices.
- **Online Shopping:** If purchased online, ensure that the seller complies with safety regulations and provides clear product information.
- **Special Consumer Focus:** Keep this product away from children. It is intended for adult use only.
- **EU Contact Point:** For safety inquiries, refer to the product packaging or the manufacturer's website for contact information.
- **Rapid Alerts:** Regularly check the EU's Safety Gate platform for updates on product safety and potential hazards.

## Specific Safety Precautions for Use

- **Compatibility:** Verify that the Speed Screw thread size (1/2"20) is compatible with your Sinclair Heavy Varmint Rests or Sinclair Competition Rests.
- **Installation:** Ensure that the Speed Screw is securely installed before use to prevent accidents.
- **Adjustments:** Make adjustments slowly and carefully to avoid sudden movements that could cause injury or damage.
- **Inspection:** Regularly inspect the Speed Screw for any signs of wear or damage. Do not use if damaged.
- **Storage:** Store the Speed Screw in a safe place when not in use to prevent accidental injury or damage.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure that your Sinclair Rifle Rest is on a stable surface.
- Remove the existing rear leg from the Rifle Rest.
- Take the Sinclair Speed Screw and align it with the mounting point.
- Firmly screw the Speed Screw into place, ensuring it is secure but not overtightened.

### 2. Usage:

- To adjust the height, turn the Speed Screw clockwise to raise and counterclockwise to lower.
- Make finetune adjustments slowly to achieve the desired height.
- Always check that the Rifle Rest is stable before placing a firearm on it.

## Disposal Instructions

- Dispose of the Speed Screw in accordance with local regulations for metal waste.
- Do not discard in regular household waste.
- Ensure that any packaging materials are also disposed of responsibly.
