

SINCLAIR PRIMING TOOL - SINCLAIR INTERNATIONAL PRIMING HEAD TOOL, BELTED MAG/WSM/ULTRA MAG

[Reloading](#) > [Priming Tools](#) > [Priming Tool Accessories](#)

The Sinclair Priming Tool is one of the finest tools we manufacture. Handloaders around the world have told us “this is the best priming tool in the world”. The Sinclair Priming Tool is manufactured from the finest materials available. The main body, head, and punch housings are all made of stainless steel, the handle is machined from aircraft grade aluminum, and the pins and pushrod are hardened. These materials insure the owner a lifetime of trouble-free use. The Sinclair Priming Tool comes complete with housings and punches for both large and small primers. The tool head utilizes Sinclair Priming Tool Shellholders and locks the case head square to the priming punch. The leverage of the tool is outstanding, yet extremely sensitive so you can feel the primer entering the primer pocket and bottoming out. Our tool is made for single feeding of primers. Our tool is expensive but made with consideration for quality and to provide the user with a well-made tool that will last a lifetime and more. There are no plastic parts to wear or break. Shellholders purchased separately.

Sinclair Priming Tool Safety Instructions

Introduction

Thank you for choosing the Sinclair Priming Tool. This guide provides essential safety instructions to ensure the safe use of the product. Please read this manual carefully before using the tool to minimize risks and enhance your experience.

General Safety Guidelines

- Always use the Sinclair Priming Tool in accordance with the manufacturer's instructions.
- Ensure that the workspace is clean and free from any obstructions.
- Keep the tool out of reach of children and vulnerable individuals.
- Regularly inspect the tool for any signs of wear or damage before each use.
- Do not use the tool for purposes other than its intended use.
- If you encounter any issues or have concerns about the tool, discontinue use immediately and seek assistance.

Specific Safety Precautions for Use

- Handle the Sinclair Priming Tool with care to avoid injury.
- Use only the recommended primers and components for your specific application.
- Ensure that the tool is securely positioned before inserting primers.
- Avoid excessive force when using the tool to prevent damage and ensure safety.
- Do not attempt to modify or alter the tool in any way.
- Always wear appropriate safety gear, such as safety glasses, when using the tool.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary materials, including primers and brass cases.
- Ensure that the Sinclair Priming Tool is clean and in good working condition.

2. Setting Up the Tool:

- Attach the appropriate shellholder for the cartridge you are using.
- Ensure that the shellholder is securely locked into place.

3. Loading Primers:

- Carefully load the primers into the designated area of the tool.
- Ensure that you are using the correct size of primers for your application.

4. Priming Process:

- Place the brass case into the shellholder, ensuring it is seated correctly.
- Gently squeeze the handle to initiate the priming process.
- Feel for resistance to confirm that the primer is seated properly.

5. PostUse:

- After use, clean the tool to remove any debris or residue.
- Store the tool in a safe, dry place away from children and pets.

Disposal Instructions

- Dispose of any unused primers and packaging materials in accordance with local regulations.
- Do not dispose of the Sinclair Priming Tool in regular household waste.
- Check with local authorities for proper disposal methods for tools and hazardous materials.

Contact Information for Further Support

For any questions or concerns regarding the Sinclair Priming Tool, please reach out to the appropriate support channels provided by the manufacturer. Ensure that you have the product's details and your inquiry ready for a more efficient response.

By following these safety instructions, you can ensure a safe and effective experience with your Sinclair Priming Tool. Thank you for your attention to safety, and happy handloading!
