

SINCLAIR HEAVY VARMINT RESTS - SINCLAIR INTERNATIONAL BENCHREST HEAVY VARMINT AMBIDEXTROUS SHOOTING REST

[Shooting Accessories](#) > [Shooting Rests](#) > [Rifle Rests](#)

The Sinclair Heavy Varmint Shooting Rest series is an evolution of our Generation II shooting rest (now discontinued) and our Competition Shooting Rest that's sought after by the best of today's benchrest competitors. The Heavy Varmint Shooting Rests feature fully upgraded hardware such as a heavy-duty stainless steel center column and 1" stainless post, oversized scalloped hand wheel with thrust bearing for ultra-smooth vertical adjustments, large ½"-20 thread rest feet with oversized aluminum anodized knobs (no plastic parts here), and a fully adjustable forend stop for shot-after-shot repeatability. The base itself is of ductile cast iron construction with a durable powder coat finish to last for a lifetime of use – exactly what you've come to expect from all Sinclair manufactured products. These shooting rests weigh up to 17 lbs with filled sand bag – designed to stay in its place on your bench top. The Sinclair Heavy Varmint Shooting Rests are available in 8 different configurations – ask any of our reloading and shooting techs for assistance selecting the model for your needs. Made right here...in the USA. Available in the following formats: The Sinclair Heavy Varmint Bench Rest model is designed for shooters who prefer using Protektor or Edgewood front sand bags. The rest top side plates allow the user to "pinch" the sand bag for subtle bag width adjustments. Purchase the front Protektor or Edgewood sand bag which best fits your forend width: sporter, varmint, or flat-bottomed B/R stock (front sand bag is not included with Sinclair Heavy Varmint Bench Rests, please see page xx and order separately). The Sinclair Heavy Varmint All-Purpose rest is designed with our versatile All-Purpose (A/P) Top which quick-adjusts to accommodate nearly any forend. Switch from narrow sporter stocks to 3-1/2" BR stocks with a turn of a lever. The Sinclair Heavy Varmint All-Purpose Rest includes a dual-sided leather/cordura sand bag (not filled). The Sinclair Heavy Varmint Basic Rest features a flat-top plate that accepts Protektor and Edgewood front sand bags, or perhaps another favorite brand. The flat-top plate allows for bags to be securely strapped. Front sand bag is not included with the Sinclair Heavy Varmint Rests, please see page xx and order separately. Both the Sinclair Heavy Varmint Bench Rest and Heavy Varmint All-Purpose Rest models are available in a windage topped version. This adds the convenience of quick-adjust horizontal movements for competitive shooting by turning the windage knob located on the side of the rest top. Available in both right-hand and left-hand shooter versions.

When ordering windage top versions, right-handed shooters will order a RIGHT-HAND rest and left-handed shooters will order a LEFT-HAND rest. The adjustment knob will be on the correct side to be adjusted with the shooter's off hand.

Sinclair Heavy Varmint Rests Safety Instruction Guide

Introduction

Thank you for choosing the Sinclair Heavy Varmint Rests. This guide provides essential safety instructions to ensure the proper and safe use of this product. Please read this document carefully before using the product.

General Safety Guidelines

- Always inspect the product for any visible damage before use.
- Ensure that the rest is set up on a stable and level surface to prevent tipping.
- Do not exceed the maximum weight limit of 17 lbs when using a filled sandbag.
- Keep the rest away from children and unauthorized users.
- Use the product only for its intended purpose, which is to provide stability for shooting activities.
- Follow all local laws and regulations regarding the use of firearms and shooting equipment.

Specific Safety Precautions for Use

- Ensure that the shooting area is clear of obstructions and bystanders before starting.
- Always use the rest in conjunction with appropriate sandbags (not included) to ensure stability.
- When adjusting the rest, make sure to do so with care to avoid sudden movements that could lead to accidents.
- Use the windage knob for horizontal adjustments only when the firearm is securely mounted on the rest.
- Avoid placing your hands or any body part near moving parts during adjustments.
- If you notice any unusual sounds or movements during use, stop immediately and inspect the product.

Instructions for Installation and Usage

1. Setup:

- Place the Sinclair Heavy Varmint Rest on a stable and flat surface.
- Ensure that the center column is securely locked in place before use.

2. Attaching Sandbags:

- Select a compatible front sandbag (Protektor or Edgewood recommended).
- Place the sandbag on the rest's top side plates, ensuring it is secure.
- Adjust the sandbag width by "pinching" it between the side plates as needed.

3. Adjustments:

- For vertical adjustments, turn the oversized hand wheel clockwise or counterclockwise.
- For horizontal adjustments, use the windage knob located on the side of the rest top.
- Make adjustments slowly and ensure the firearm remains secure at all times.

4. Usage:

- Once the firearm is mounted, ensure it is stable before taking a shot.
- Always maintain a safe shooting posture and ensure the shooting area is secure.

Disposal Instructions

- Dispose of the Sinclair Heavy Varmint Rest in accordance with local regulations.
- If the product is damaged beyond repair, consider recycling components where possible.
- Do not dispose of the product in regular household waste.

Contact Information for Further Support

For any safety inquiries or further assistance regarding the Sinclair Heavy Varmint Rests, please refer to the manufacturer's contact details provided on the packaging or product documentation.

Thank you for your attention to these safety instructions. Enjoy your shooting experience with the Sinclair Heavy Varmint Rests.
