

# SINCLAIR HEAVY VARMINT RESTS - SINCLAIR INTERNATIONAL NO TOP HEAVY VARMINT AMBIDEXTROUS SHOOTING REST

[Shooting Accessories](#) > [Shooting Rests](#) > [Rifle Rests](#)

The Sinclair Heavy Varmint Shooting Rest series is an evolution of our Generation II shooting rest (now discontinued) and our Competition Shooting Rest that's sought after by the best of today's benchrest competitors. The Heavy Varmint Shooting Rests feature fully upgraded hardware such as a heavy-duty stainless steel center column and 1" stainless post, oversized scalloped hand wheel with thrust bearing for ultra-smooth vertical adjustments, large 1/2"-20 thread rest feet with oversized aluminum anodized knobs (no plastic parts here), and a fully adjustable forend stop for shot-after-shot repeatability. The base itself is of ductile cast iron construction with a durable powder coat finish to last for a lifetime of use - exactly what you've come to expect from all Sinclair manufactured products. These shooting rests weigh up to 17 lbs with filled sand bag - designed to stay in its place on your bench top. The Sinclair Heavy Varmint Shooting Rests are available in 8 different configurations - ask any of our reloading and shooting techs for assistance selecting the model for your needs. Made right here...in the USA. Available in the following formats: The Sinclair Heavy Varmint Bench Rest model is designed for shooters who prefer using Protektor or Edgewood front sand bags. The rest top side plates allow the user to "pinch" the sand bag for subtle bag width adjustments. Purchase the front Protektor or Edgewood sand bag which best fits your forend width: sporter, varmint, or flat-bottomed B/R stock (front sand bag is not included with Sinclair Heavy Varmint Bench Rests, please see page xx and order separately). The Sinclair Heavy Varmint All-Purpose rest is designed with our versatile All-Purpose (A/P) Top which quick-adjusts to accommodate nearly any forend. Switch from narrow sporter stocks to 3-1/2" BR stocks with a turn of a lever. The Sinclair Heavy Varmint All-Purpose Rest includes a dual-sided leather/cordura sand bag (not filled). The Sinclair Heavy Varmint Basic Rest features a flat-top plate that accepts Protektor and Edgewood front sand bags, or perhaps another favorite brand. The flat-top plate allows for bags to be securely strapped. Front sand bag is not included with the Sinclair Heavy Varmint Rests, please see page xx and order separately. Both the Sinclair Heavy Varmint Bench Rest and Heavy Varmint All-Purpose Rest models are available in a windage topped version. This adds the convenience of quick-adjust horizontal movements for competitive shooting by turning the windage knob located on the side of the rest top. Available in both right-hand and left-hand shooter versions.

When ordering windage top versions, right-handed shooters will order a RIGHT-HAND rest and left-handed shooters will order a LEFT-HAND rest. The adjustment knob will be on the correct side to be adjusted with the shooter's off hand.

# Safety Instruction Guide for Sinclair Heavy Varmint Rests

## Introduction

Thank you for choosing the Sinclair Heavy Varmint Rests. This guide provides essential safety instructions to ensure the safe and effective use of your product. Please read this document carefully before using the rest to understand the safety precautions and operational guidelines.

## General Safety Guidelines

- Ensure that the rest is used only for its intended purpose as described in the product documentation.
- Always inspect the rest before each use for any signs of damage or wear.
- Keep the rest out of reach of children and vulnerable individuals when not in use.
- Use the rest in a wellventilated area to avoid any potential hazards associated with dust or debris.
- Avoid using the rest in wet or damp conditions to prevent rust and deterioration of materials.

## Specific Safety Precautions for Use

- When adjusting the rest, ensure that your hands are clear of moving parts to avoid injury.
- Use proper lifting techniques when moving the rest, as it may be heavy (up to 17 lbs when filled).
- Ensure that the surface where the rest is placed is stable and secure to prevent tipping or falling.
- Do not exceed the weight limit specified for the rest to maintain stability and safety.
- If using the rest with sand bags, ensure that the bags are securely positioned to avoid slipping during use.

## Instructions for Installation and Usage

### 1. Setting Up the Rest

- Place the rest on a flat and stable surface.
- Ensure that the rest is securely positioned to prevent any movement during use.

### 2. Adjusting the Rest

- Use the oversized scalloped hand wheel to make vertical adjustments smoothly.
- Adjust the forend stop as needed for shot aftershot repeatability.

### 3. Using Sand Bags

- Select the appropriate front sand bag (Protektor or Edgewood) based on your forend width.
- Pinch the sand bag between the top side plates of the rest for subtle adjustments.

### 4. Windage Adjustment (if applicable)

- If your model includes a windage knob, turn it gently to make horizontal adjustments.
- Ensure that adjustments are made while the rest is stable and secure.

### 5. PostUse Care

- After use, clean the rest to remove any dust or debris.
- Store the rest in a dry place to prevent rust and damage.

## Disposal Instructions

- Dispose of the rest in accordance with local regulations regarding metal and fabric waste.
- Do not dispose of the rest in regular household waste.
- If the rest is damaged beyond repair, contact your local waste management facility for guidance on proper disposal.

## Contact Information for Further Support

For any safety inquiries or support regarding the Sinclair Heavy Varmint Rests, please reach out to the designated contact point for your region. Ensure you have the product details available for a quicker response.

Thank you for your attention to these safety instructions. Your safety is our priority, and proper use of the Sinclair Heavy Varmint Rests will enhance your shooting experience.
