

RELOADING MANUAL-2ND EDITION - SWIFT BULLET RELOADING MANUAL-2ND EDITION

[Reloading](#) > [Books & Videos](#) > [Books](#) > [Reloading Books & Manuals](#)

Developed by hunters with decades of field and reloading experience, the second edition of Swift's manual has 475 pages of detailed handloading data and is beautifully illustrated. It contains load data for 86 rifle cartridges, plus hunting ballistics for each. Additions include loads with the latest powders from Hodgdon, IMR, Alliant, Vihta-Vuori and Norma for many of the popular foreign cartridges. It's handsomely stitch-bound into an oblong hard-cover volume whose pages lay flat when you open it on your loading bench. A striking addition to any handloader's library!

Safety Instruction Guide for Swift Bullet Reloading Manual 2nd Edition

Introduction

Thank you for choosing the Swift Bullet Reloading Manual 2nd Edition. This manual is designed to provide you with comprehensive handloading data and safety guidelines for reloading ammunition. It is essential to follow these safety instructions to ensure a safe and effective reloading experience.

General Safety Guidelines

- Always read and understand the entire manual before starting your reloading process.
- Use the manual only for its intended purpose, which is to provide data and guidance for reloading ammunition.
- Keep the manual in a safe and accessible location for future reference.
- Ensure that your reloading area is wellventilated and free from clutter.
- Use personal protective equipment (PPE) such as safety glasses and gloves when handling powders and ammunition components.
- Store all reloading materials, including powders and primers, in a secure location away from children and unauthorized individuals.
- Regularly check for updates on safety guidelines and recall notices related to reloading products.

Specific Safety Precautions for Use

- Always verify the accuracy of load data before use. Crossreference with other reputable sources if necessary.
- Do not exceed the recommended load limits specified in the manual.
- Ensure that all equipment used for reloading is in good working condition and suitable for the specific cartridges you are loading.
- Avoid distractions while reloading. Focus on the task at hand to prevent accidents.
- Keep a fire extinguisher rated for flammable materials in your reloading area.
- Be aware of the potential hazards associated with handling gunpowder and primers, including the risk of fire and explosion.
- Dispose of any unused or outdated reloading materials according to local regulations.

Instructions for Installation and Usage

- Set up your reloading bench in a stable and secure location, away from high traffic areas.
- Organize your reloading tools and materials for easy access and efficiency.
- Follow these steps for reloading ammunition:
 1. Gather all necessary components: brass cases, primers, powders, and projectiles.
 2. Inspect brass cases for damage or wear before reloading.
 3. Clean the brass cases if needed to ensure proper function.
 4. Follow the load data provided in the manual for selecting the appropriate powder and charge weight.
 5. Measure the powder using a calibrated scale and pour it into the brass case.
 6. Seat the primer into the case using a primer tool.
 7. Insert the projectile and ensure it is seated to the correct depth as per the manual.
 8. Inspect the finished cartridge for any defects or irregularities.
- Store completed ammunition in a cool, dry place, away from direct sunlight.

Disposal Instructions

- Dispose of any unused or outdated reloading materials in accordance with local environmental regulations.
- Do not throw away hazardous materials such as gunpowder and primers in regular trash.
- Contact local waste management authorities for guidance on safe disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the Swift Bullet Reloading Manual 2nd Edition, please refer to the contact information provided in the manual. It is important to have access to a knowledgeable source for assistance with safety inquiries.

By following these safety instructions, you can help ensure a safe and enjoyable reloading experience. Always prioritize safety and stay informed about best practices in ammunition reloading.
