

FULL LENGTH DIE SETS - RCBS 6.5MM CREEDMOOR FULL-LENGTH DIE SET

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Full length die sets are for bottleneck rifle and pistol cases, and they include a full length sizing die and a seater die. The full length die will bump the shoulder of the case to extent the die is adjusted up or down in the press. We suggest using a cartridge headspace gage tool to get the correct shoulder bump. The full length die also sizes the body of the case so it will chamber easily for the next firing, then the die decaps the spent primer. The expander ball passes through the neck of the case and sizes the neck to the correct tension. Cases must be lubricated before full length sizing. The RCBS seater dies for bottleneck cases will seat bullets correctly in full length sized cases or neck sized cases. These seater dies have a built-in crimp ring to enable you to crimp the case into the bullet if you wish to. The seater die is easily adjusted to crimp or not to crimp by raising or lowering the die position in the press. Full length 2 die sets are the basic building block of the reloading process. Many shooters wear out multiple barrels or rifles using just one full length reloading die set. We recommend that new reloaders start with a full length die set and learn how to set the dies up correctly before they jump in to other types of reloading dies.

Attributes

- Name: [RCBS 6.5MM CREEDMOOR FULL-LENGTH DIE SET](#)
- Manufacturer: [RCBS](#)
- Product no.: 749013951
- Mfr. No.: 32901
- Cartridge: 6.5 Creedmoor
- Die Style: -
- Delivery weight: 0.522kg
- Shipping height: 25mm
- Shipping width: 114mm
- Shipping length: 152mm
- UPC: 076683329011

Safety Instruction Guide for RCBS 6.5MM Creedmoor FullLength Die Set

Introduction

Thank you for choosing the RCBS 6.5MM Creedmoor FullLength Die Set. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of your die set. Please read this document thoroughly before using the product.

General Safety Guidelines

- Ensure safe use of the die set by following all instructions carefully.
- Be aware of potential hazards associated with reloading ammunition.
- Always wear appropriate safety gear, including safety glasses and gloves, when reloading.
- Store the die set in a secure location, out of reach of children and pets.
- Regularly check for wear and damage to the die set to maintain safety and performance.
- Report any unsafe products or accidents to the relevant authorities.
- Stay updated on recall notices through the EU Safety Gate platform.

Specific Safety Precautions for Use

- **Lubrication:** Always lubricate cases before fulllength sizing to prevent sticking and ensure smooth operation.
- **Adjustments:** Make sure to adjust the die correctly to avoid oversizing or damaging the cases.
- **Headspace Measurement:** Use a cartridge headspace gauge tool to ensure proper shoulder bump and avoid misfires or chambering issues.
- **Crimping:** If crimping bullets, ensure the seater die is set correctly to avoid damaging the bullet or case.
- **Component Inspection:** Inspect all components, including cases and bullets, for defects before use.
- **Work Area:** Maintain a clean and organized work area to minimize the risk of accidents.

Instructions for Installation and Usage

1. Setup:

- Securely mount the press on a stable workbench.
- Ensure that the area is welllit and free from distractions.

2. Die Installation:

- Remove the die from its packaging and inspect for any damage.
- Install the fulllength sizing die into the press according to the manufacturer's instructions.
- Adjust the die position to achieve the desired shoulder bump.

3. Sizing Cases:

- Lubricate cases thoroughly before inserting them into the sizing die.
- Insert the case into the die and operate the press to size the case.
- Remove the case and inspect for proper sizing and lubrication.

4. Seating Bullets:

- Install the seater die into the press following the same procedure as the sizing die.
- Adjust the die to achieve the correct bullet seating depth.

- Insert the primed and sized case into the die and operate the press to seat the bullet.
- Check the crimping adjustment if crimping is desired.

5. Maintenance:

- Clean the die set after each use to remove any residue or debris.
- Store the die set in a dry, cool place to prevent rust and damage.

Disposal Instructions

- Dispose of any damaged or worn components responsibly, adhering to local regulations.
- Do not dispose of spent primers or other hazardous materials in regular trash.
- Check with local waste management authorities for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the RCBS 6.5MM Creedmoor FullLength Die Set, please refer to the manufacturer's official support channels.

By following these guidelines, you can ensure a safe and effective reloading experience with your RCBS die set. Always prioritize safety and compliance with regulations to enjoy your reloading activities responsibly.
