

STEEL NECK SIZING BUSHINGS - RCBS STEEL NECK DIE BUSHING .287

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Can't Load With RCBS GMM Dies Without One

RCBS Steel Neck Bushings are interchangeable to let the reloader select a bushing that gives precisely the right amount of tension on the bullet when using RCBS Gold Medal Match sizing dies. Using a precisely fitted Steel Neck Bushing reduces work hardening of the case neck brass, prolonging case life and helping to improve accuracy. Self-centering for proper alignment with case neck For best results, the use of high-end brass with consistent neck thicknesses is recommended Bushings come "in-the-white" - bare steel - so traditional case lubrication is required For use ONLY with RCBS Gold Medal sizing dies RCBS recommends having neck bushings one to two sizes above and below your target diameter (see note below). RCBS Steel Neck Bushings are a small but critical component in loading extremely consistent-shooting ammo with your Gold Medal Match sizing dies. Brownells Gun Tech™ Tip: There are two ways to select the steel neck bushings you need: (1) Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003". This allows approximately .001" of brass to spring back for correct neck tension. (2) You can also measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet and subtract .002" to .003".

Attributes

- Name: [RCBS STEEL NECK DIE BUSHING .287](#)
- Manufacturer: [RCBS](#)
- Product no.: 749014076
- Mfr. No.: 81602
- Diameter (in): .287
- Delivery weight: 0.007kg
- Shipping height: 13mm
- Shipping width: 51mm
- Shipping length: 152mm
- UPC: 076683816023

Safety Instruction Guide for RCBS Steel Neck Sizing Bushings

Introduction

Thank you for choosing the RCBS Steel Neck Sizing Bushings. These bushings are designed to enhance your reloading experience by providing precise neck tension, which can improve the accuracy and longevity of your ammunition. To ensure safe and effective use of this product, please read and follow the safety guidelines and instructions provided in this guide.

General Safety Guidelines

- Always handle the bushings with care to avoid injury.
- Ensure that your reloading equipment is in good working condition before use.
- Keep the bushings out of reach of children and vulnerable individuals.
- Report any unsafe products or accidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform regularly.

Specific Safety Precautions for Use

- Use the bushings only with RCBS Gold Medal sizing dies as intended.
- Ensure that the brass used is of high quality and has consistent neck thickness for optimal results.
- Always wear safety glasses when reloading to protect your eyes from potential debris.
- Avoid using excessive force when installing or removing the bushings to prevent damage.
- Do not attempt to modify or alter the bushings in any way.
- If you experience any issues during use, stop immediately and consult the product documentation or seek professional assistance.

Instructions for Installation and Usage

1. Selecting the Right Bushing:

- Measure the outside neck diameter of your loaded cartridge.
- Subtract .002" to .003" to determine the appropriate bushing size.
- Alternatively, measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet, and subtract .002" to .003".

2. Installation:

- Ensure that your RCBS Gold Medal sizing die is clean and free from debris.
- Insert the selected Steel Neck Bushing into the die until it is securely in place.
- Doublecheck that the bushing is properly aligned before proceeding.

3. Usage:

- Place the case into the sizing die and apply steady pressure to resize the neck.
- Monitor the tension on the bullet to ensure it is within acceptable limits.
- After resizing, inspect the case for any signs of damage or deformation.

4. Maintenance:

- Clean the bushings after use to prevent corrosion or buildup of debris.
- Store the bushings in a dry place, away from direct sunlight and moisture.

Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations.
- If the bushings are still functional but no longer needed, consider recycling them or donating to a local shooting club or reloading group.

Contact Information for Further Support

For any questions or concerns regarding the use of RCBS Steel Neck Sizing Bushings, please refer to the product manual or contact your local distributor.
