

# STEEL NECK SIZING BUSHINGS - RCBS STEEL NECK DIE BUSHING .332

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

## Can't Load With RCBS GMM Dies Without One

RCBS Steel Neck Bushings are interchangeable to let the reloader select a bushing that gives precisely the right amount of tension on the bullet when using RCBS Gold Medal Match sizing dies. Using a precisely fitted Steel Neck Bushing reduces work hardening of the case neck brass, prolonging case life and helping to improve accuracy. Self-centering for proper alignment with case neck For best results, the use of high-end brass with consistent neck thicknesses is recommended Bushings come "in-the-white" - bare steel - so traditional case lubrication is required For use ONLY with RCBS Gold Medal sizing dies RCBS recommends having neck bushings one to two sizes above and below your target diameter (see note below). RCBS Steel Neck Bushings are a small but critical component in loading extremely consistent-shooting ammo with your Gold Medal Match sizing dies. Brownells Gun Tech™ Tip: There are two ways to select the steel neck bushings you need: (1) Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003". This allows approximately .001" of brass to spring back for correct neck tension. (2) You can also measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet and subtract .002" to .003".

## Attributes

- Name: [RCBS STEEL NECK DIE BUSHING .332](#)
- Manufacturer: [RCBS](#)
- Product no.: 749014110
- Mfr. No.: 81647
- Diameter (in): .332
- Delivery weight: 0.113kg
- Shipping height: 6mm
- Shipping width: 51mm
- Shipping length: 152mm
- UPC: 076683816474

# Safety Instruction Guide for RCBS Steel Neck Sizing Bushings

## Introduction

Thank you for choosing RCBS Steel Neck Sizing Bushings. These bushings are designed to provide the perfect amount of tension on the bullet when using RCBS Gold Medal Match sizing dies. This guide provides important safety instructions and guidelines to ensure safe and effective use of this product.

## General Safety Guidelines

- **Product Safety:** Always ensure the safe use of all nonfood products. Follow the instructions carefully to avoid risks.
- **Enhanced Recalls:** Stay informed about any recalls. Always check for updates to ensure your product is safe.
- **Online Shopping:** If you purchased this product online, ensure that the platform complies with safety requirements.
- **Special Consumer Focus:** Extra care should be taken when using this product around vulnerable groups, including children.
- **EU Contact Point:** For any safety inquiries, refer to the designated EU contact point for this product.
- **Rapid Alerts:** Be aware of faster updates on unsafe products via the Safety Gate system.

## Specific Safety Precautions for Use

- **Hazard Identification:**
  - Improper use of the bushings may lead to incorrect neck tension, which can affect accuracy and safety.
  - Always use the bushings with RCBS Gold Medal sizing dies only.
- **Avoiding Hazards:**
  - Ensure that the bushing is correctly fitted to avoid misalignment with the case neck.
  - Use highquality brass with consistent neck thickness for best results.
  - Lubricate the bushings before use to prevent damage and ensure smooth operation.
- **AgeSpecific Warnings:**
  - Keep this product out of reach of children. It is intended for use by adults who are knowledgeable about reloading ammunition.

## Instructions for Installation and Usage

- **Selecting the Right Bushing:**
  - Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003" for correct neck tension.
  - Alternatively, measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet, and subtract .002" to .003".
- **Installation:**
  - Ensure that the sizing die is clean and free from debris.

- Insert the selected steel neck bushing into the sizing die.
- Tighten the bushing securely to prevent movement during use.

- **Usage:**

- Use traditional case lubrication on the bushing as it comes "inthewhite" (bare steel).
- Always check alignment before resizing cases to ensure proper operation.
- After resizing, inspect cartridges for any signs of damage or improper sizing.

## **Disposal Instructions**

- Dispose of any damaged or wornout bushings in accordance with your local regulations.
- Do not dispose of the product in regular household waste. Follow specific guidelines for the disposal of metal products.

## **Contact Information for Further Support**

For any questions or concerns regarding the use of RCBS Steel Neck Sizing Bushings, please refer to the designated EU contact point for assistance.

By following these guidelines, you can ensure a safe and effective reloading process with your RCBS Steel Neck Sizing Bushings. Thank you for your attention to safety and for choosing our products.
