

STEEL NECK SIZING BUSHINGS - RCBS STEEL NECK DIE BUSHING .333

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Can't Load With RCBS GMM Dies Without One

RCBS Steel Neck Bushings are interchangeable to let the reloader select a bushing that gives precisely the right amount of tension on the bullet when using RCBS Gold Medal Match sizing dies. Using a precisely fitted Steel Neck Bushing reduces work hardening of the case neck brass, prolonging case life and helping to improve accuracy. Self-centering for proper alignment with case neck For best results, the use of high-end brass with consistent neck thicknesses is recommended Bushings come "in-the-white" - bare steel - so traditional case lubrication is required For use ONLY with RCBS Gold Medal sizing dies RCBS recommends having neck bushings one to two sizes above and below your target diameter (see note below). RCBS Steel Neck Bushings are a small but critical component in loading extremely consistent-shooting ammo with your Gold Medal Match sizing dies. Brownells Gun Tech™ Tip: There are two ways to select the steel neck bushings you need: (1) Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003". This allows approximately .001" of brass to spring back for correct neck tension. (2) You can also measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet and subtract .002" to .003".

Attributes

- Name: [RCBS STEEL NECK DIE BUSHING .333](#)
- Manufacturer: [RCBS](#)
- Product no.: 749014112
- Mfr. No.: 81648
- Diameter (Breech): -
- Diameter (in): .333
- Delivery weight: 0.007kg
- Shipping height: 8mm
- Shipping width: 51mm
- Shipping length: 152mm
- UPC: 076683816481

Safety Instruction Guide for RCBS Steel Neck Sizing Bushings

Introduction

Thank you for choosing RCBS Steel Neck Sizing Bushings. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of this product. Please read this document carefully before using the bushings to avoid any potential hazards.

General Safety Guidelines

- Ensure the use of the product is in accordance with the manufacturer's instructions.
- Always handle the bushings with care to avoid injury.
- Store the bushings in a safe, dry place, away from children and pets.
- Regularly inspect the bushings for any signs of wear or damage before use.
- Use personal protective equipment (PPE) such as safety glasses and gloves when handling and using the sizing bushings.

Specific Safety Precautions for Use

- **Compatibility:** Use only with RCBS Gold Medal sizing dies. Using with other products may pose safety risks.
- **Measurement:** Accurately measure the outside neck diameter of your loaded cartridge or the neck wall thickness of your case to ensure the correct bushing size is selected.
- **Lubrication:** Since the bushings come "inthewhite" (bare steel), traditional case lubrication is required to prevent damage during use.
- **Neck Tension:** Ensure the selected bushing provides the correct neck tension by following the measurement guidelines provided.
- **Children and Vulnerable Groups:** Keep the bushings out of reach of children and individuals who may not understand the risks associated with their use.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and materials, including your RCBS Gold Medal sizing die and the selected neck bushing.
- Ensure your workspace is clean and organized.

2. Selecting the Right Bushing:

- Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003" for proper neck tension.
- Alternatively, measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet, and subtract .002" to .003".

3. Installation:

- Remove the sizing die from your reloading press.
- Insert the selected RCBS Steel Neck Bushing into the sizing die, ensuring it is properly seated.
- Reinstall the sizing die onto your reloading press, following the manufacturer's instructions.

4. Usage:

- Lubricate the cases as required before sizing.
- Follow the standard operation procedures of your reloading press to size the cases.
- Monitor the sizing process to ensure proper alignment and operation.

5. PostUsage:

- Clean the bushings after use to prevent corrosion.
- Store the bushings in a protective case or container.

Disposal Instructions

- Dispose of any damaged or worn bushings according to local regulations.
- Do not dispose of the bushings in regular household waste if they are considered hazardous materials.

Contact Information for Further Support

For any safety inquiries or additional support regarding the RCBS Steel Neck Sizing Bushings, please refer to the manufacturer's contact information provided with your product packaging or visit the official RCBS website.

By following these guidelines, you can ensure the safe and effective use of your RCBS Steel Neck Sizing Bushings. Thank you for prioritizing safety in your reloading activities.
