

STEEL NECK SIZING BUSHINGS - RCBS STEEL NECK DIE BUSHING .335

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Can't Load With RCBS GMM Dies Without One

RCBS Steel Neck Bushings are interchangeable to let the reloader select a bushing that gives precisely the right amount of tension on the bullet when using RCBS Gold Medal Match sizing dies. Using a precisely fitted Steel Neck Bushing reduces work hardening of the case neck brass, prolonging case life and helping to improve accuracy. Self-centering for proper alignment with case neck For best results, the use of high-end brass with consistent neck thicknesses is recommended Bushings come "in-the-white" - bare steel - so traditional case lubrication is required For use ONLY with RCBS Gold Medal sizing dies RCBS recommends having neck bushings one to two sizes above and below your target diameter (see note below). RCBS Steel Neck Bushings are a small but critical component in loading extremely consistent-shooting ammo with your Gold Medal Match sizing dies. Brownells Gun Tech™ Tip: There are two ways to select the steel neck bushings you need: (1) Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003". This allows approximately .001" of brass to spring back for correct neck tension. (2) You can also measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet and subtract .002" to .003".

Attributes

- Name: [RCBS STEEL NECK DIE BUSHING .335](#)
- Manufacturer: [RCBS](#)
- Product no.: 749014116
- Mfr. No.: 81650
- Diameter (Breech): -
- Diameter (in): .335
- Delivery weight: 0.005kg
- Shipping height: 6mm
- Shipping width: 51mm
- Shipping length: 146mm
- UPC: 076683816504

Safety Instruction Guide for RCBS Steel Neck Sizing Bushings

Introduction

Thank you for choosing the RCBS Steel Neck Sizing Bushings. This guide provides essential safety instructions and usage information to ensure your experience with our product is safe and effective. Please read this guide carefully before using the product.

General Safety Guidelines

- Ensure that the RCBS Steel Neck Sizing Bushings are used in accordance with all safety instructions provided in this guide.
- Always handle the bushings with care to avoid injury. The bushings are made of steel and can have sharp edges.
- Keep the bushings out of reach of children and vulnerable individuals.
- Inspect the bushings before each use for signs of damage or wear. Do not use damaged bushings.
- Follow all local laws and regulations regarding the use of reloading equipment and components.

Specific Safety Precautions for Use

- Use the bushings only with RCBS Gold Medal Match sizing dies. Using them with other brands may lead to improper fit and potential hazards.
- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when reloading.
- Ensure that your workspace is clean and organized to prevent accidents.
- Do not exceed the recommended tolerances when selecting the neck bushing size.
- Avoid using excessive force when resizing cases to prevent equipment damage or personal injury.
- Store the bushings in a dry and secure location to prevent corrosion and damage.

Instructions for Installation and Usage

1. Selecting the Correct Bushing Size:

- Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003" for proper tension.
- Alternatively, measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet, and subtract .002" to .003".

2. Installation:

- Ensure that the RCBS Gold Medal Match sizing die is clean and free of debris.
- Carefully insert the selected steel neck bushing into the sizing die until it is fully seated.
- Secure the die in your reloading press according to the manufacturer's instructions.

3. Usage:

- Place the case in the shell holder of your reloading press.
- Apply a suitable case lubricant to the exterior of the case neck to prevent sticking.
- Operate the press to resize the case. Ensure proper alignment to avoid damaging the case or bushing.
- Inspect the resized case for proper neck tension and fit.

4. PostUse Care:

- After use, clean the bushings to remove any lubricant or debris.
- Store the bushings in a protective case or container to prevent damage.

Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations regarding metal waste.
- Do not throw bushings in regular trash; consider recycling options where available.

Contact Information for Further Support

For any questions or concerns regarding the RCBS Steel Neck Sizing Bushings, please refer to the contact information provided by your retailer or visit the official RCBS website for support.

Thank you for your attention to these safety instructions. Your safety is our priority, and we hope you enjoy using our product.
